Dear Proprietor

Re Table of Fares – 2014 Review

The table of fares is reviewed annually in November and therefore I am writing to you now to obtain your views on the existing table of fares. The table of fares review has been calculated using the July 2014 AA figures for running petrol and diesel cars, added to these are the cost of the vehicle licence and additional amounts for insurance and maintenance making the overall cost more relevant to the Isle of Wight.

Having reviewed the AA figures and including the additional costs the calculation process would indicate that the table of fares do not need to be increased this year. The fuel costs used in these calculation used were; petrol £1.30 and diesel £1.37. Currently the cost of fuel is considerably less.

The decision to amend or retain the current fares will be made by the Licensing Committee. To enable me to provide a detailed report to this committee for consideration I would be grateful if you can please consult with your drivers and submit any comments in writing, you and your drivers may have along with justification/examples for consideration to me by Friday 14th November 2014 at the above address or by email to licensing@iow.gov.uk.

Should you wish to discuss this matter further please do not hesitate to contact me.

Yours sincerely

Kevin Winchcombe
Principal Licensing Officer
