

Objections received during the consultation period

NAME: Mr M Cooper

ADDRESS: Lower Rd, Adgestone, Brading Parish, Isle of Wight, PO36

COMMENTS: This Application was not seen by Adgestone residents until recently, due to (i) there being no apparent Press Notice (unlike Planning) and (ii) no-one walking by, due to local flooding. Living in a single-track road in an AONB, we already have the 'dusk drivers' leaving the Golf Course, and seemingly in a great hurry to get home. What should be a pleasant evening walk is often beset by inconsiderate drivers.

This latest application for 'Live and Recorded Music', Mon-Sun, 2300-0100, with associated Supply of Alcohol will have two effects on local residents:-

- (1) the clubhouse is an short distance across the marshes from local properties. Potential seven days a week noise until 1am will be a severe annoyance.
- (2) there is no public transport near the club and many attendees are expected to use the local lanes on leaving. This will create traffic noise and a potential hazard for anyone else not using motorised transport.

Though I would not object to all late night events at this venue, I would like to see a small limit placed on the number of occasions such that this did not become a new 'night club'.

NAME: P. Webb

ADDRESS: Sandown, PO36

COMMENTS: We have the following concerns at the grant of this license:

- 1) increased noise much later at night in the hamlet of Adgestone - which is both an unlit rural area of narrow roads and a designated quiet area. The increased traffic flow with departure times from functions will now be much later than currently experienced - 01:00 instead of 23:00.
- 2) the possibility of noise disturbance from the music source at the Golf Club during warm / hot evenings, particularly in the summer, unless they adhere rigidly to the stated condition of having their windows closed whilst music is in process. We would ask if the club is air-conditioned?
- 3) the consumption of alcohol is being requested for both inside and out. Does this imply that the balcony shown on the supplied plan - or another outside area - will be used by their guests whilst music is being provided and if so how will the Club guarantee the condition referred to in point (2) above?

NAME: Ian Pearson

ADDRESS: Lower Rd, Adgestone, PO36

COMMENTS: I oppose this application, as I consider that it will lead to an increase in late-night disturbance of the area, -directly from the music, -from increased road traffic, -from increased night-time illumination (site is adjacent to Dark Sky designated area)

NAME: David Godolphin

ADDRESS: Lower Rd, Adgestone, Parish of Brading, Isle of Wight, PO36

COMMENTS: I have considered the pillars of the Licensing Act and wish to object to this proposal on the following grounds:

- Prevention of Crime and Disorder.

This is an issue for the Police but to oversee a rural venue such as this will involve additional resources.

- Public safety.

With increased numbers of entertainment events, more people will be walking or driving onto the narrow country lanes surrounding the site.

- Prevention of Public Nuisance.

There are houses within a short distance. Live and Disco music will create annoyance, particularly during summer months when windows are open. Late night traffic will cause nuisance.

Finally, I suggest that the expansion of entertainment time moves the Club into a situation not covered by its current planning approval.
