

PENSION BOARD– FRIDAY, 11 MARCH 2016

Written question from Paul Wilkinson, Chairman of the Board to the Technical Finance Manager.

Is the Council providing information of this nature for 2013 as part of a national requirement, and if so, to what timetable?

Response

As part of the ACCESS group submission to central government for July 2016, CEM Benchmarking has been commissioned to provide this cost analysis, for the financial years ended 31 March 2013, 2014 and 2015 (NB 2014 is not specifically required, but will provide a continuity of analysis to demonstrate progress)

The first draft of the data has already been submitted to CEM, and some questions have been received back, for which responses are being prepared.

The deadline for the final submission of all responses to CEM has been agreed as 31 March 2016, with a view to getting the reports (individualised funds and ACCESS group combined) back for 20 May 2016, to allow time for 15 July 2016 submission to be finalised.
