

Project dashboard – 9 April 2019

Summary of all cases by category

Category	Total	Completed		Queries		To be processed				Out Of Scope
		Cases completed		Queries raised with employers	Cases with IOW for review	Queries to be raised with employers	Cases to be sent to IOW for checking	Cases for ITM checking	Cases for ITM processing	
Undetermined	8									8
Data Query	300	94								206
Refund	340	193								147
Deferred	778	699								79
Non-Concurrent Aggregation	373	360								13
Concurrent Aggregation	411	370								41
Total reported cases	2,210	1,716								494
Total reported cases – Baseline	1,944									

Notes:

- The total number of reported cases has risen since the baseline due to data received from employers either pertaining to existing administration records not in scope (in which case they have been passed to BAU), or with identifying details that make it unclear whether the data pertains to a record in scope or not. You will also see that this has increased from our previous reports. This is due to cases being brought in to scope through re-employment, concurrency etc.
