

Planning Committee – 2 June 2020

Written question from Dr Lloyd to the Chairman of the Planning Committee

In the absence of a second access road will the Planning Committee please ensure provision is made to provide off-road parking for the residents of the current Forest Hills cul-de-sac and visitors, (Say twelve parking spaces) and actively pursue making a condition of the proposed developments that in the event of either scheme going ahead the 'green strip' is widened by a further twenty metres to that currently proposed.

Response

It is considered that this is not a question for the planning committee, but a representation on current applications. It has therefore been provided to the case officer for these applications. The applications are currently still under consideration by officers and the applications are therefore not ready to be presented to committee for consideration.
