

The Isle of Wight Local Care Board (LCB) – Terms of Reference

1. Purpose

The Isle of Wight LCB comprises of the most significant commissioners and providers of care on the Island. It will represent a different way of working with partners holding each other to account for transforming the Local Care System.

The LCB will work to the following principles:

- To put the interests of patients, communities and the taxpayer before the interests of individual organisations, and focus on these together to deliver the Local Care System Vision.
- The LCB will aim to jointly commission and develop new care models that break down the boundaries between different providers and make the best use of the Island pound.
- Makes full use of Pooled Budgets, the Better Care Fund and innovative commissioning frameworks to facilitate long term planning and improved outcomes.
- Have a focus on prevention and population health management.
- Ensures people with on-going care needs receive more coordinated care, with more services at home and in community settings.
- Provides high quality care that is integrated with primary, community, mental health and social care.
- Aligns with the vision and objectives of the Hampshire and Isle of Wight Sustainability Transformation Programme.

2. Responsibilities

- Transform the Local Care System and drive the delivery of best outcomes for those we serve.
- To improve the physical, mental health and wellbeing of Isle of Wight residents through the integrated commissioning and provision of adult social care, health, children's and public health services.
- The development and delivery of a Local Care Plan (LCP) to transform care on the Isle of Wight within available resources.
- To ensure evidence based and outcomes focussed approach to decision making and planning.
- To establish and monitor the key performance indicators that will identify the successful implementation of the LCP and provide a forum for the management and resolution of key system issues.

- To identify and secure the resources necessary to support the LCP.
- To enable a system wide response to any intervention and improvement programme introduced by or imposed on any partner organisation that has a system wide impact.
- To ensure the LCP is consistent with and contributes to the aspirations of the HIOW Sustainability Transformation Plan (STP) and that the needs of the Isle of Wight are properly identified and reflected.
- ~~To take on the responsibilities and functions of the A and E Delivery Board.~~
[note that LCB 23 October 2019 agreed for this line to be removed]
