

Isle of Wight Council
Audit planning report

Year ended 31 March 2020

March 2020

PAPER B

Building a better
working world

3 March 2020

Isle of Wight Council
County Hall
High Street
Newport, Isle of Wight
PO30 1UD

Dear Audit Committee Members

Audit planning report

We are pleased to attach our Audit Plan which sets out how we intend to carry out our responsibilities as auditor. Its purpose is to provide the Audit Committee with a basis to review our proposed audit approach and scope for the 2019/20 audit in accordance with the requirements of the Local Audit and Accountability Act 2014, the National Audit Office's 2015 Code of Audit Practice, the Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA) Ltd, auditing standards and other professional requirements. It is also to ensure that our audit is aligned with the Committee's service expectations.

This plan summarises our initial assessment of the key risks driving the development of an effective audit for the Council, and outlines our planned audit strategy in response to those risks. Our planning procedures remain ongoing, and we will update the Audit Committee should any further matters come to our attention that impact the assessment of key issues or our audit scope.

This report is intended solely for the information and use of the Audit Committee and management, and is not intended to be and should not be used by anyone other than these specified parties.

We welcome the opportunity to discuss this report with you on 16 March 2020 as well as understand whether there are other matters which you consider may influence our audit.

Yours faithfully

Helen Thompson

For and on behalf of Ernst & Young LLP

09 Appendices

Public Sector Audit Appointments Ltd (PSAA) issued the "Statement of responsibilities of auditors and audited bodies". It is available from the PSAA website (<https://www.psa.co.uk/audit-quality/statement-of-responsibilities/>). The Statement of responsibilities serves as the formal terms of engagement between appointed auditors and audited bodies. It summarises where the different responsibilities of auditors and audited bodies begin and end, and what is to be expected of the audited body in certain areas. The "Terms of Appointment and further guidance (updated April 2018)" issued by the PSAA sets out additional requirements that auditors must comply with, over and above those set out in the National Audit Office Code of Audit Practice (the Code) and in legislation, and covers matters of practice and procedure which are of a recurring nature. This report is made solely to the Audit Committee and management of Isle of Wight Council in accordance with the statement of responsibilities. Our work has been undertaken so that we might state to the Audit Committee, and management of Isle of Wight Council those matters we are required to state to them in this report and for no other purpose. To the fullest extent permitted by law we do not accept or assume responsibility to anyone other than the Audit Committee and management of Isle of Wight Council for this report or for the opinions we have formed. It should not be provided to any third-party without our prior written consent.

01 Overview of our 2019/20 audit strategy

Overview of our 2019/20 audit strategy

The following 'dashboard' summarises the significant accounting and auditing matters outlined in this report. It seeks to provide the Audit Committee with an overview of our initial risk identification for the upcoming audit and any changes in risks identified in the current year.

Audit risks and areas of focus

Risk / area of focus	Risk identified	Change from PY	Details
Misstatements due to fraud or error	Fraud risk	No change in risk or focus	As identified in ISA 240, management is in a unique position to perpetrate fraud because of its ability to manipulate accounting records directly or indirectly and prepare fraudulent financial statements by overriding controls that would otherwise appear to be operating effectively.
Risk of fraud in revenue and expenditure recognition, through inappropriate capitalisation of revenue expenditure	Fraud risk/ Significant risk	No change in risk; refocused	Under ISA 240 there is a presumed risk that revenue may be misstated due to improper revenue recognition. In the public sector, this requirement is modified by Practice Note 10 issued by the Financial Reporting Council, which states that auditors should also consider the risk that material misstatements may occur by the manipulation of expenditure recognition. We have assessed the risk is most likely to occur through the inappropriate capitalisation of revenue expenditure.
Valuation of Land and Buildings and Investment Property	Inherent risk	No change in risk or focus	The fair value of Property, Plant and Equipment (PPE) and Investment Property (IP) represent significant balances in the Council's accounts and are subject to valuation changes, impairment reviews and depreciation charges. Management is required to make material judgemental inputs and apply estimation techniques to calculate the year-end balances recorded in the balance sheet.
PFI Accounting	Inherent risk	No change in risk or focus	The Council has one PFI arrangement, which is material to our audit. PFI accounting is a complex area, and a detailed review of these arrangements was undertaken by our internal specialist when the PFI was introduced. We will review the accounting entries and disclosures in relation to PFI in detail in 2019/20, with a focus on any significant changes since the specialist's review.
Pension Liability Valuation	Inherent risk	No change in risk or focus	The Local Authority Accounting Code of Practice and IAS 19 require the Council to make extensive disclosures within its financial statements regarding its membership of the Local Government Pension Scheme for which it is also the administering body. Accounting for this scheme involves significant estimation and judgement and therefore management engages an actuary to undertake the calculations on their behalf. ISAs (UK) 500 and 540 require us to undertake procedures on the use of management experts and the assumptions underlying fair value estimates.

Overview of our 2019/20 audit strategy

The following 'dashboard' summarises the significant accounting and auditing matters outlined in this report. It seeks to provide the Audit Committee with an overview of our initial risk identification for the upcoming audit and any changes in risks identified in the current year.

Audit risks and areas of focus

Risk / area of focus	Risk identified	Change from PY	Details
IFRS 16 Leases	Inherent risk	New accounting standard	It is currently proposed that IFRS 16 will be applicable for local authority accounts from 1 April 2020. There are transitional arrangements within the standard and although the 2020/21 Accounting Code of Practice for Local Authorities has yet to be issued, CIPFA have issued some limited provisional information which begins to clarify what the impact on local authority accounting will be. Whether any accounting statutory overrides will be introduced to mitigate any impact remains an outstanding issue. Within the 2019/20 financial statements, the Council will need to make disclosures, required under IAS8, in relation to the expected impact of this new standard on the 2020/21 financial statements.
Business Rates appeals provision	Inherent risk	No change in risk or focus	The Authority is required to make a provision to cover the possibility of successful appeals by ratepayers against the rateable value of their business property, and the commensurate refund of business rates resulting from such appeals. The provision must take into account both appeals lodged to date but not yet decided, and potential appeals yet to be received. The underlying appeals process is subject to a number of factors and as such the estimation of the appeals provision involves significant judgment.
Minimum Revenue Provision (MRP)	Inherent risk	Increase in risk or focus	Local authorities are normally required each year to set aside some of their revenues as provision for capital expenditure financed by borrowing or credit arrangements. This provision is known as MRP. MRP is a real charge that impacts on the general fund and therefore the council tax financing requirement. The calculation of MRP is inherently complex and the charge in 2019/20 is expected to be material to our audit.
Going Concern: Compliance with ISA 570	Inherent risk	Forthcoming change in auditing standards	The revised standard is effective for audits of financial statements for periods commencing on or after 15 December 2019. This auditing standard has been revised in response to enforcement cases and well-publicised corporate failures where the auditor's report failed to highlight concerns about the prospects of entities which collapsed shortly after. The revised standard increases the work we are required to perform when assessing whether the Council is a going concern. It means UK auditors will follow significantly stronger requirements than those required by current international standards; and we have therefore judged it appropriate to bring this to the attention of the Audit Committee.

Overview of our 2019/20 audit strategy

Materiality

Planning
materiality
£3.84m

Materiality has been set at £3.84m, which represents 1% of the prior year's gross expenditure on provision of services.

Performance
materiality
£2.88m

Performance materiality has been set at £2.88m, which represents 75% of planning materiality.

Audit
differences
£191k

We will report all uncorrected misstatements relating to the primary statements (comprehensive income and expenditure statement, balance sheet and collection fund) greater than £0.191m. Other misstatements identified will be communicated to the extent that they merit the attention of the Audit Committee.

Overview of our 2019/20 audit strategy

Audit scope

This Audit Plan covers the work that we plan to perform to provide you with:

- Our audit opinion on whether the financial statements of Isle of Wight Council give a true and fair view of the financial position as at 31 March 2020 and of the income and expenditure for the year then ended; and
- Our conclusion on the Council's arrangements to secure economy, efficiency and effectiveness.

We will also review and report to the National Audit Office (NAO), to the extent and in the form required by them, on the Council's Whole of Government Accounts return.

Our audit will also include the mandatory procedures that we are required to perform in accordance with applicable laws and auditing standards.

When planning the audit we take into account several key inputs:

- Strategic, operational and financial risks relevant to the financial statements;
- Developments in financial reporting and auditing standards;
- The quality of systems and processes;
- Changes in the business and regulatory environment; and
- Management's views on all of the above.

By considering these inputs, our audit is focused on the areas that matter and our feedback is more likely to be relevant to the Council.

Taking the above into account, and as articulated in this audit plan, our professional responsibilities require us to independently assess the risks associated with providing an audit opinion and undertake appropriate procedures in response to that. Our Terms of Appointment with PSAA allow them to vary the fee dependent on "the auditors assessment of risk and the work needed to meet their professional responsibilities". PSAA are aware that the setting of scale fees has not kept pace with the changing requirements of external audit with increased focus on, for example, the valuations of land and buildings, the auditing of groups, the valuation of pension obligations, the introduction of new accounting standards such as IFRS 9, 15 and 16 in recent years as well as the expansion of factors impacting the value for money conclusion. Therefore to the extent any of these are relevant in the context of Isle of Wight Council's audit, we will discuss these with management as to the impact on the scale fee.

02 Audit risks

Audit risks

Our response to significant risks

We have set out the significant risks (including fraud risks denoted by*) identified for the current year audit along with the rationale and expected audit approach. The risks identified below may change to reflect any significant findings or subsequent issues we identify during the audit.

Misstatements due to fraud or error*

What is the risk?

The financial statements as a whole are not free of material misstatements whether caused by fraud or error.

As identified in ISA (UK) 240, management is in a unique position to perpetrate fraud because of its ability to manipulate accounting records directly or indirectly and prepare fraudulent financial statements by overriding controls that otherwise appear to be operating effectively. We identify and respond to this fraud risk on every audit engagement.

We have considered the areas in which management could seek to override controls at Isle of Wight Council, and this had fed into our consideration of the risk of fraud in revenue and expenditure recognition as set out on page 11.

What will we do?

We will:

- Identify fraud risks during the planning stages.
- Enquire of management about risks of fraud and the controls put in place to address those risks.
- Understand the oversight given by those charged with governance of management's processes over fraud.
- Consider the effectiveness of management's controls designed to address the risk of fraud.
- Perform mandatory procedures regardless of specifically identified fraud risks, including testing of journal entries and other adjustments in the preparation of the financial statements.
- Review accounting estimates for evidence of management bias.
- Evaluate the business rationale for significant unusual transactions.

Audit risks

Our response to significant risks (continued)

We have set out the significant risks (including fraud risks denoted by*) identified for the current year audit along with the rationale and expected audit approach. The risks identified below may change to reflect any significant findings or subsequent issues we identify during the audit.

Risk of fraud in revenue and expenditure recognition, through inappropriate capitalisation of revenue expenditure*

What is the risk?

Under ISA 240 there is a presumed risk that revenue may be misstated due to improper revenue recognition. In the public sector, this requirement is modified by Practice Note 10 issued by the Financial Reporting Council, which states that auditors should also consider the risk that material misstatements may occur by the manipulation of expenditure recognition.

We have assessed that the risk is most likely to occur through the inappropriate capitalisation of revenue expenditure, as there is an incentive to reduce expenditure which is funded from Council Tax.

Financial statement impact

We have assessed that the risk of fraud in revenue and expenditure recognition is most likely to occur through the inappropriate capitalisation of revenue expenditure. This would have the impact of reducing revenue expenditure and increasing additions to Property, Plant and Equipment.

The value of PPE additions in 2018/19 was £41m. The Council's forecast 2019/20 capital programme expenditure as reported at Q2 is £24.6m, with a further expected £17m of additions arising from the highways PFI.

What will we do?

We will:

- Test PPE additions using lowered testing thresholds, to ensure they are appropriately supported by documentary evidence, and that the expenditure incurred and capitalised is clearly capital in nature; and
- Seek to identify and understand the basis for any significant journals transferring expenditure from non-capital codes to PPE additions or from revenue to capital codes on the general ledger at the end of the year.

Audit risks

Other areas of audit focus

We have identified other areas of the audit, that have not been classified as significant risks, but are still important when considering the risks of material misstatement to the financial statements and disclosures.

What is the risk/area of focus?

Valuation of Land and Buildings
The fair value of Property, Plant and Equipment (PPE) and Investment Property (IP) represent significant balances in the Council's accounts and are subject to valuation changes, impairment reviews and depreciation charges. Management is required to make material judgemental inputs and apply estimation techniques to calculate the year-end balances recorded in the balance sheet.

What will we do?

We will:

- Consider the work performed by the Council's valuers, including the adequacy of the scope of the work performed, their professional capabilities and the results of their work;
- Sample test key asset information used by the valuers in performing their valuation and challenge the key assumptions used by the valuer;
- Consider the annual cycle of valuations to ensure that assets have been valued within a 5 year rolling programme as required by the Code for PPE and annually for Investment Property. We will also consider if there are any specific changes to assets that have occurred and whether these have been communicated to the valuer;
- Review assets not subject to valuation in 2019/20 to confirm that the remaining asset base is not materially misstated;
- Consider changes to useful economic lives as a result of the most recent valuation; and
- Test to confirm that accounting entries have been correctly processed in the financial statements.

PFI accounting

The Council has one PFI arrangement, which is material to our audit. PFI accounting is a complex area, and a detailed review of these arrangements was undertaken by our internal specialist when the PFI was introduced. We will review the accounting entries and disclosures in relation to PFI in detail in 2019/20, with a focus on any significant changes since the specialist's review.

We will:

- Review assurances brought forward from prior years regarding the appropriateness of the PFI financial model;
- Review the PFI financial model for any significant changes, and if identified consider engaging relevant experts to review the model to ensure it is still working as expected;
- Ensure the PFI accounting model has been updated for any service or other agreed variations and confirm consistency of the current year model with prior year brought forward assurances; and
- Agree outputs of the model to the accounts, including balances and disclosures for Assets, Liabilities, and Expenditure, and review the completeness and accuracy of disclosures.

Audit risks

Other areas of audit focus (continued)

What is the risk/area of focus?

Pension Liability Valuation
The Local Authority Accounting Code of Practice and IAS19 require the Council to make extensive disclosures within its financial statements regarding its membership of the Local Government Pension Scheme, for which the Council is also the administering body. The Council's pension fund deficit is a material estimated balance and the Code requires that this liability be disclosed on the Council's balance sheet. The information disclosed is based on the IAS 19 report issued to the Council by the actuary to the Pension Fund.

Accounting for this scheme involves significant estimation and judgement and therefore management engages an actuary to undertake the calculations on their behalf. ISAs (UK) 500 and 540 require us to undertake procedures on the use of management experts and the assumptions underlying fair value estimates.

In the prior year the 'McCloud' judgement impacted the estimate and resulted in an amendment of the net pension liability. We anticipate this will again be a key assumption in estimating the pension liability. We would expect the Authority's actuary to be making their assumptions taking into account the Council's specific membership profile and how it has been impacted by the judgement. We also note that there may be further developments in this area, potentially again coming after the balance sheet date.

What will we do?

We will:

- Liaise with the auditors of Isle of Wight Council Pension Fund, to obtain assurances over the information supplied to the actuary in relation to Isle of Wight Council. We note that a full triennial valuation of Isle of Wight Council Pension Fund as at 31 March 2019 is in the process of being undertaken. As part of our work on the Isle of Wight Council Pension Fund audit, we will need to undertake some testing of the data informing this, to gain assurance over the IAS19 liability at 31 March 2020 provided by the Actuary for the Council and accounted for in its financial statements;
- Assess the work of the Pension Fund actuary (Hymans Robertson) including the assumptions they have used by relying on the work of PWC - Consulting Actuaries commissioned by the National Audit Office for all Local Government sector auditors, and considering any relevant reviews by the EY actuarial team; and
- Review and test the accounting entries and disclosures made within the Council's financial statements in relation to IAS19.

Audit risks

Other areas of audit focus (continued)

What is the risk/area of focus?

IFRS16 – leases

IFRS 16 Leases was issued by the IASB in 2016. Its main impact is to remove (for lessees) the traditional distinction between finance leases and operating leases. Finance leases have effectively been accounted for as acquisitions (with the asset on the balance sheet, together with a liability to pay for the asset acquired). In contrast, operating leases have been treated as “pay as you go” arrangements, with rentals expensed in the year they are paid. IFRS 16 requires all substantial leases to be accounted for using the acquisition approach, recognising the rights acquired to use an asset.

Implementation of IFRS 16 will be included in the Code of Practice on Local Authority Accounting in the United Kingdom (the Code) for 2020/21. This Code has yet to be published, but in July 2019 CIPFA/LASAAC issued IFRS 16 leases and early guide for practitioners’.

This early guidance provides comprehensive coverage of the requirements of the forthcoming provisions, including:

- the identification of leases
- the recognition of right-of-use assets and liabilities and their subsequent measurement
- treatment of gains and losses
- derecognition and presentation and disclosure in the financial statements,
- the management of leases within the Prudential Framework.

The guidance also covers the transitional arrangements for moving to these new requirements, such as:

- the recognition of right-of-use assets and liabilities for leases previously accounted for as operating leases by lessees
- the mechanics of making the transition in the 2020/21 financial statements (including the application of transitional provisions and the preparation of relevant disclosure notes).

What will we do?

IFRS 16 – leases introduces a number of significant changes which go beyond accounting technicalities. For example, the changes have the potential to impact on procurement processes as more information becomes available on the real cost of leases.

The key accounting impact is that assets and liabilities in relation to significant lease arrangements previously accounted for as operating leases will need to be recognised on the balance sheet.

Although the new standard will not be included in the CIPFA Code of Practice until 2020/21, work will be necessary to secure information required to enable authorities to fully assess their leasing position and ensure compliance with the standard from 1 April 2020.

In particular, full compliance with the revised standard for 2020/21 is likely to require a detailed review of existing lease and other contract documentation prior to 1 April 2020 in order to identify:

- all leases which need to be accounted for
- the costs and lease term which apply to the lease
- the value of the asset and liability to be recognised as at 1 April 2020 where a lease has previously been accounted for as an operating lease.

We will:

- discuss progress made in preparing for the implementation of IFRS 16 – leases with the finance team over the course of our 2019/20 audit.
- review the Council’s process for detailed identification and review of the leases it holds; and
- ensure appropriate disclosures are recorded in the 2019/20 financial statements.

Audit risks

Other areas of audit focus (continued)

What is the risk/area of focus?

Business rates appeals provision

The Council is required to make a provision to cover the possibility of successful appeals by ratepayers against the rateable value of their business property, and the commensurate refund of business rates resulting from such appeals. The provision must take into account both appeals lodged to date but not yet decided, and potential appeals yet to be received. The underlying appeals process is subject to a number of factors and as such the estimation of the appeals provision involves significant judgment. This has been further increased by the introduction of the new ratings list from 01 April 2017 and changes to the method of making appeals.

What will we do?

We will:

- Document the Council's approach to calculating the provision;
- Consider the work performed by the Council's external specialist in relation to appeals against ratings lists prior to 2017, including the adequacy of the scope of the work performed, their professional capabilities and the results of their work; and
- Consider the Council's approach to establishing the provision against the 2017 list, whether this is appropriate to the Council, and whether the resulting provision is materially accurate.

MRP

Local authorities are normally required each year to set aside some of their revenues as provision for capital expenditure financed by borrowing or credit arrangements. This provision is known as MRP. MRP is a real charge that impacts on the general fund and therefore the council tax financing requirement. The calculation of MRP is inherently complex.

We will:

- Use the completed outputs of the review undertaken in 2016/17 by our internal specialist of the Council's MRP calculations to inform our assessment of the material accuracy of the Council's MRP estimate and release of its historic overprovision in 2019/20;
- Consider any changes in the Council's approach to MRP since the review was completed; and
- Consider the impact of changes in the Council's asset base in 2019/20 on the MRP charge for the year.

Audit risks

Other areas of audit focus (continued)

What is the risk/area of focus?

Going Concern Compliance with ISA 570

This auditing standard has been revised in response to enforcement cases and well-publicised corporate failures where the auditor's report failed to highlight concerns about the prospects of entities which collapsed shortly after.

The revised standard is effective for audits of financial statements for periods commencing on or after 15 December 2019, which for the Council will be the audit of the 2020/21 financial statements. The revised standard increases the work we are required to perform when assessing whether the Council is a going concern. It means UK auditors will follow significantly stronger requirements than those required by current international standards; and we have therefore judged it appropriate to bring this to the attention of the Audit Committee.

What will we do?

The revised standard will require:

- greater work for us to challenge management's assessment of going concern, thoroughly test the adequacy of the supporting evidence we obtained and evaluate the risk of management bias. Our challenge will be made based on our knowledge of the Council obtained through our audit, which will include additional specific risk assessment considerations which go beyond the current requirements;
- necessary consideration regarding the appropriateness of financial statement disclosures around going concern.

We will discuss the detailed implications of the new standard with finance staff during 2019/20 ahead of its application for 2020/21.

03 Value for Money Risks

Background

We are required to consider whether the Council has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources. This is known as our value for money conclusion.

For 2019/20 this is based on the overall evaluation criterion:

"In all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people"

Proper arrangements are defined by statutory guidance issued by the National Audit Office. They comprise your arrangements to:

- Take informed decisions;
- Deploy resources in a sustainable manner; and
- Work with partners and other third parties.

In considering your proper arrangements, we will draw on the requirements of the CIPFA/SOLACE framework for local government to ensure that our assessment is made against a framework that you are already required to have in place and to report on through documents such as your annual governance statement.

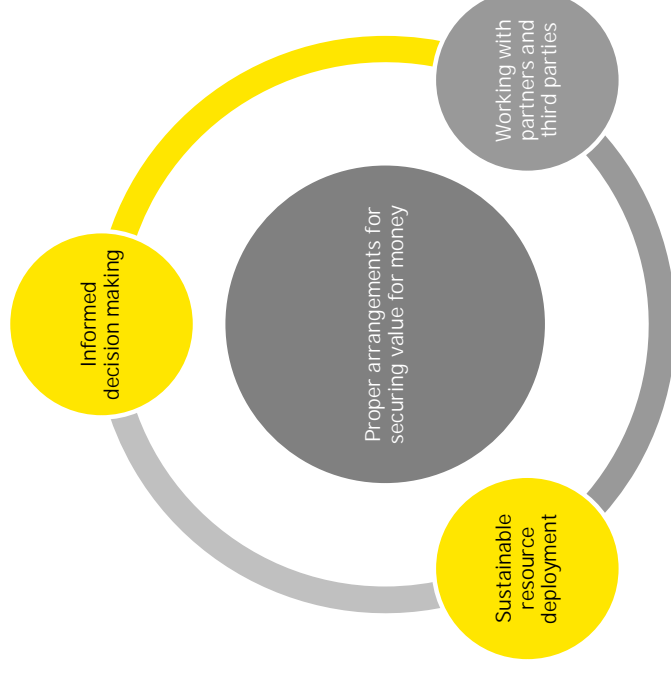

We are only required to determine whether there are any risks that we consider significant, which the Code of Audit Practice defines as:

"A matter is significant if, in the auditor's professional view, it is reasonable to conclude that the matter would be of interest to the audited body or the wider public"

Our risk assessment supports the planning of sufficient work to enable us to deliver a safe conclusion on arrangements to secure value for money and enables us to determine the nature and extent of further work that may be required. If we do not identify any significant risks there is no requirement to carry out further work. We consider business and operational risks insofar as they relate to proper arrangements at both sector and organisation-specific level.

Our risk assessment has therefore considered both the potential financial impact of the issues we have identified, and also the likelihood that the issue will be of interest to local taxpayers, the Government and other stakeholders.

This has resulted in the identification of one significant risk at the planning stage of our audit to date, as detailed on the following page. We will keep this assessment under review and update the Audit Committee as soon as possible if further risks are identified during the remainder of our audit.

Value for Money

Value for Money Risks

What is the significant value for money risk?

Progress in achieving medium and longer term financial sustainability

The Council continues to face very significant financial challenges as a result of ongoing reductions in funding from central government and increasing demand for high-cost services. It needs to save £5.5 million in 2019/20 in order to meet a balanced budget, and in the medium term, the Council needs to achieve total further savings of £15 million in the period 2020/21 – 2023/24.

We noted in our value for money conclusion in 2018/19 and 2017/18 that good progress had been made across a number of key areas linked to the Council's current medium term financial strategy, which is intended to address the financial challenges it faces. We also noted the positive outturn positions achieved for 2017/18 and 2018/19, which had allowed a strengthening of reserves, and that a balanced budget had been set for 2019/20.

However, our work in prior years acknowledged that the financial pressures facing the Council are ongoing, and that significant work remained to be done to bring some of the longer-term aspects of the medium term financial strategy to fruition. We have also noted through our ongoing value for money work that the Council faces potential additional financial challenges arising from recent developments, most notably with regard to Christ the King school.

As such, we judge that the significant risk to the Council's ability to deploy resources sustainably remains present in 2019/20. Our value for money work will therefore focus on the further progress made this year in strengthening the Council's arrangements to ensure financial stability in the longer term, including addressing issues which have arisen since the medium term financial strategy was introduced.

What arrangements does the risk affect?

Sustainable resource deployment - planning finances effectively to support the sustainable delivery of strategic priorities and maintain statutory functions.

What will we do?

We will:

- Review the 2019/20 outturn against budget, and the consequent impact on the Council's reserves and wider financial position. This will include understanding any significant new cost pressures arising in 2019/20, including those matters noted to the left, and any potential longer term impacts they may have;
- Review the progress made in setting a balanced budget and identifying the required savings for 2020/21, and the robustness of underlying assumptions; and
- Review the further progress made against key elements of the Council's medium term financial strategy in 2019/20.

Audit materiality

04

Materiality

Materiality

For planning purposes, materiality for 2019/20 has been set at £3.84m. This represents 1% of the Council's prior year gross expenditure on provision of services. It will be reassessed throughout the audit process. We have set materiality using gross revenue expenditure as our expectation is that users of the Council's accounts are focussed on how it uses its resources to provide services to local people. We have used 1% based on our assessment of the Council's financial position, levels of public interest, lack of planned reorganisations and sources of borrowing. We have provided supplemental information about audit materiality in Appendix C.

We request that the Audit Committee confirm its understanding of, and agreement to, these materiality and reporting levels.

Key definitions

Planning materiality – the amount over which we anticipate misstatements would influence the economic decisions of a user of the financial statements.

Performance materiality – the amount we use to determine the extent of our audit procedures. We have set performance materiality at £2.88m which represents 75% of planning materiality. The rationale for using 75% is based on the anticipation of identifying few or no errors during the audit. This expectation has been built on our experience of the Council in prior years.

Audit difference threshold – we propose that misstatements identified below this threshold are deemed clearly trivial. We will report to you all uncorrected misstatements over this amount relating to the comprehensive income and expenditure statement, balance sheet and collection fund. Other uncorrected misstatements, such as reclassifications and misstatements in the cashflow statement and movement in reserves statement or disclosures, and corrected misstatements will be communicated to the extent that they merit the attention of the Committee, or are important from a qualitative perspective.

Specific materiality – We have set a materiality of £18k for the Firefighters Pension Fund statements, based on 1% of Benefits Paid. We have also set a materiality of £1k for remuneration disclosures, related party transactions, members' allowances and exit packages, which reflects our understanding that an amount less than our materiality would influence the economic decisions of users of the financial statements in relation to these areas.

A yellow gear icon with circuit-like patterns inside, positioned at the top of a black vertical banner.

05 Scope of our audit

Our Audit Process and Strategy

Objective and Scope of our Audit scoping

Under the Code of Audit Practice our principal objectives are to review and report on the Council's financial statements and arrangements for securing economy, efficiency and effectiveness in its use of resources to the extent required by the relevant legislation and the requirements of the Code.

We issue an audit report that covers:

1. Financial statement audit

Our objective is to form an opinion on the financial statements under International Standards on Auditing (UK).

We also perform other procedures as required by auditing, ethical and independence standards, the Code and other regulations. We outline below the procedures we will undertake during the course of our audit.

Procedures required by standards

- Addressing the risk of fraud and error;
- Significant disclosures included in the financial statements;
- Entity-wide controls;
- Reading other information contained in the financial statements and reporting whether it is inconsistent with our understanding and the financial statements; and
- Auditor independence.

Procedures required by the Code

- Reviewing, and reporting on as appropriate, other information published with the financial statements, including the Annual Governance Statement; and
- Reviewing and reporting on the Whole of Government Accounts return, in line with the instructions issued by the NAO.

2. Arrangements for securing economy, efficiency and effectiveness (value for money)

We are required to consider whether the Council has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources.

Our Audit Process and Strategy (continued)

Audit Process Overview

Our audit involves:

- Identifying and understanding the key processes and internal controls; and
- Substantive tests of detail of transactions and amounts.

For 2019/20 we plan to follow a substantive approach to the audit, as we have concluded this is the most efficient way to obtain the level of audit assurance required to conclude that the financial statements are not materially misstated.

Analytics:

We will use our computer-based analytics tools to enable us to capture whole populations of your financial data, in particular journal entries. These tools:

- Help identify specific exceptions and anomalies which can then be subject to more traditional substantive audit tests; and
- Give greater likelihood of identifying errors than random sampling techniques.

We will report the findings from our process and analytics work, including any significant weaknesses or inefficiencies identified and recommendations for improvement, to management and the Audit Committee.

Internal audit:

We will regularly meet with the Head of Internal Audit, and review internal audit plans and the results of their work. We will reflect the findings from these reports, together with reports from any other work completed in the year, in our detailed audit procedures, where they raise issues that could have an impact on the financial statements, the Narrative Statement or the Annual Governance Statement.

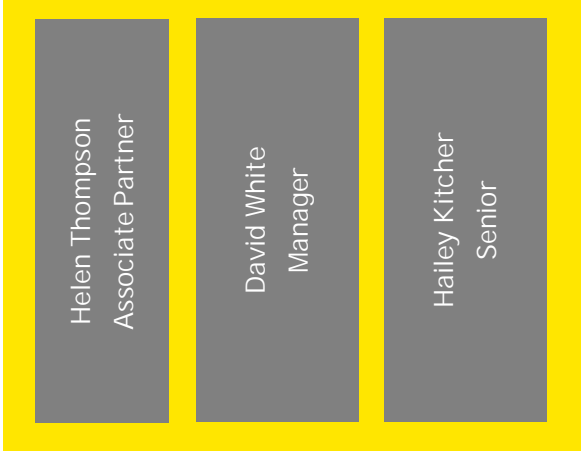

Audit team

06

Audit team

Audit team structure:

Working together with the Council

We are working together with officers to identify continuing improvements in communication and processes for the 2019/20 audit.

We will continue to keep our audit approach under review to streamline it where possible.

Use of specialists

When auditing key judgements, we are often required to rely on the input and advice provided by specialists who have qualifications and expertise not possessed by the core audit team. The areas where either EY or third party specialists provide input for the current year audit are:

Area	Specialists
Valuation of Land and Buildings	John Prince (Principals Surveyors) – Council’s external valuer of land and buildings Avison Young – Council’s external valuer of investment property
Pensions disclosure	PwC as consulting actuary appointed by the NAO, and EY internal pensions specialists Hymans Robertson – Actuary to Isle of Wight Council Pension Fund
Business Rates appeals provision	Analyse Local – Council’s external valuer of appeals provision

In accordance with Auditing Standards, we will evaluate each specialist’s professional competence and objectivity, considering their qualifications, experience and available resources, together with the independence of the individuals performing the work.

We also consider the work performed by the specialist in light of our knowledge of the Council’s business and processes and our assessment of audit risk in the particular area. For example, we would typically perform the following procedures:

- Analyse source data and make inquiries as to the procedures used by the specialist to establish whether the source data is relevant and reliable;
- Assess the reasonableness of the assumptions and methods used;
- Consider the appropriateness of the timing of when the specialist carried out the work; and
- Assess whether the substance of the specialist’s findings are properly reflected in the financial statements.

Audit timeline

Audit timeline

Timetable of communication and deliverables

Timeline

Below is a timetable showing the key stages of the audit and the deliverables we have agreed to provide to you through the audit cycle in 2019/20. From time to time matters may arise that require immediate communication with the Audit Committee and we will discuss them with the Committee Chair as appropriate. We will also provide updates on corporate governance and regulatory matters as necessary.

Audit phase	Timetable	Audit committee timetable	Deliverables
Planning: Risk assessment and setting of scopes Walkthroughs of key systems and processes	January		
	February		
Interim audit testing	March	Audit Committee	Audit Planning Report
Walkthroughs of key systems and processes	April		
	May		
Year end audit	June		
Year end audit	July	Audit Committee	Audit Results Report
Audit Completion procedures	August		Audit opinions and completion certificates Annual Audit Letter

Independence

08

Independence

Introduction

The FRC Ethical Standard and ISA (UK) 260 "Communication of audit matters with those charged with governance", requires us to communicate with you on a timely basis on all significant facts and matters that bear upon our integrity, objectivity and independence. The Ethical Standard, as revised in June 2016, requires that we communicate formally both at the planning stage and at the conclusion of the audit, as well as during the course of the audit if appropriate. The aim of these communications is to ensure full and fair disclosure by us to those charged with your governance on matters in which you have an interest.

Required communications

Planning stage	Final stage
<ul style="list-style-type: none"> ▶ The principal threats, if any, to objectivity and independence identified by Ernst & Young (EY) including consideration of all relationships between the you, your affiliates and directors and us; ▶ The safeguards adopted and the reasons why they are considered to be effective, including any Engagement Quality review; ▶ The overall assessment of threats and safeguards; ▶ Information about the general policies and process within EY to maintain objectivity and independence. ▶ Where EY has determined it is appropriate to apply more restrictive independence rules than permitted under the Ethical Standard 	<ul style="list-style-type: none"> ▶ In order for you to assess the integrity, objectivity and independence of the firm and each covered person, we are required to provide a written disclosure of relationships (including the provision of non-audit services) that may bear on our integrity, objectivity and independence. This is required to have regard to relationships with the entity, its directors and senior management, its affiliates, and its connected parties and the threats to integrity or objectivity, including those that could compromise independence that these create. We are also required to disclose any safeguards that we have put in place and why they address such threats, together with any other information necessary to enable our objectivity and independence to be assessed; ▶ Details of non-audit services provided and the fees charged in relation thereto; ▶ Written confirmation that the firm and each covered person is independent and, if applicable, that any non-EY firms used in the group audit or external experts used have confirmed their independence to us; ▶ Written confirmation that all covered persons are independent; ▶ Details of any inconsistencies between FRC Ethical Standard and your policy for the supply of non-audit services by EY and any apparent breach of that policy; ▶ Details of any contingent fee arrangements for non-audit services provided by us or our network firms; and ▶ An opportunity to discuss auditor independence issues.

In addition, during the course of the audit, we are required to communicate with you whenever any significant judgements are made about threats to objectivity and independence and the appropriateness of safeguards put in place, for example, when accepting an engagement to provide non-audit services. We also provide information on any contingent fee arrangements, the amounts of any future services that have been contracted, and details of any written proposal to provide non-audit services that has been submitted. We ensure that the total amount of fees that EY and our network firms have charged to you and your affiliates for the provision of services during the reporting period, analysed in appropriate categories, are disclosed.

Relationships, services and related threats and safeguards

We highlight the following significant facts and matters that may be reasonably considered to bear upon our objectivity and independence, including the principal threats, if any. We have adopted the safeguards noted below to mitigate these threats along with the reasons why they are considered to be effective. However we will only perform non-audit services if the service has been pre-approved in accordance with your policy.

Overall Assessment

Overall, we consider that the safeguards that have been adopted appropriately mitigate the principal threats identified and we therefore confirm that EY is independent and the objectivity and independence of Helen Thompson, your audit engagement partner, and the audit engagement team have not been compromised.

Self interest threats

A self interest threat arises when EY has financial or other interests in the Council. Examples include where we receive significant fees in respect of non-audit services; where we need to recover long outstanding fees; or where we enter into a business relationship with you. At the time of writing, there are no long outstanding fees. We believe that it is appropriate for us to undertake permissible non-audit services and we will comply with the policies that you have approved. None of the services are prohibited under the FRC's ES or the National Audit Office's Auditor Guidance Note 01 and the services have been approved in accordance with your policy on pre-approval. The ratio of non-audit fees to audit fees is not permitted to exceed 70%. At the time of writing, no non-audit services have been undertaken, therefore the current ratio of non-audit fees to audit fees is zero. No additional safeguards are required.

A self interest threat may also arise if members of our audit engagement team have objectives or are rewarded in relation to sales of non-audit services to you. We confirm that no member of our audit engagement team, including those from other service lines, has objectives or is rewarded in relation to sales to you, in compliance with Ethical Standard part 4.

There are no other self interest threats at the date of this report.

Self review threats

Self review threats arise when the results of a non-audit service performed by EY or others within the EY network are reflected in the amounts included or disclosed in the financial statements.

There are no self review threats at the date of this report.

Relationships, services and related threats and safeguards

Management threats

Partners and employees of EY are prohibited from taking decisions on behalf of management of the Council. Management threats may also arise during the provision of a non-audit service in relation to which management is required to make judgements or decision based on that work.

There are no management threats at the date of this report.

Other threats

Other threats, such as advocacy, familiarity or intimidation, may arise.

There are no other threats at the date of this report.

New UK Independence Standards

The Financial Reporting Council (FRC) published the Revised Ethical Standard 2019 in December and it will apply to accounting periods starting on or after 15 March 2020. A key change in the new Ethical Standard will be a general prohibition on the provision of non-audit services by the auditor (and its network) which will apply to UK Public Interest Entities (PIEs). A narrow list of permitted services will continue to be allowed.

Summary of key changes

- Extraterritorial application of the FRC Ethical Standard to UK PIE and its worldwide affiliates
- A general prohibition on the provision of non-audit services by the auditor (or its network) to a UK PIE, its UK parent and worldwide subsidiaries
- A narrow list of permitted services where closely related to the audit and/or required by law or regulation
- Absolute prohibition on the following relationships applicable to UK PIE and its affiliates including material significant investees/investors:
 - Tax advocacy services
 - Remuneration advisory services
 - Internal audit services
 - Secondment/loan staff arrangements
- An absolute prohibition on contingent fees.
- Requirement to meet the higher standard for business relationships i.e. business relationships between the audit firm and the audit client will only be permitted if it is inconsequential.
- Permitted services required by law or regulation will not be subject to the 70% fee cap.
- Grandfathering will apply for otherwise prohibited non-audit services that are open at 15 March 2020 such that the engagement may continue until completed in accordance with the original engagement terms.
- A requirement for the auditor to notify the Audit Committee where the audit fee might compromise perceived independence and the appropriate safeguards.
- A requirement to report to the audit committee details of any breaches of the Ethical Standard and any actions taken by the firm to address any threats to independence. A requirement for non-network component firm whose work is used in the group audit engagement to comply with the same independence standard as the group auditor. Our current understanding is that the requirement to follow UK independence rules is limited to the component firm issuing the audit report and not to its network. This is subject to clarification with the FRC.

Next Steps

We will continue to monitor and assess all ongoing and proposed non-audit services and relationships to ensure they are permitted under FRC Revised Ethical Standard 2016 which will continue to apply until 31 March 2020 as well as the recently released FRC Revised Ethical Standard 2019 which will be effective from 1 April 2020. We will work with you to ensure orderly completion of the services or where required, transition to another service provider within mutually agreed timescales.

We do not provide any non-audit services which would be prohibited under the new standard.

Other communications

EY Transparency Report 2019

Ernst & Young (EY) has policies and procedures that instil professional values as part of firm culture and ensure that the highest standards of objectivity, independence and integrity are maintained.

Details of the key policies and processes in place within EY for maintaining objectivity and independence can be found in our annual Transparency Report which the firm is required to publish by law. The most recent version of this Report is for the year ended 30 June 2019 and can be found here:

[https://www.ey.com/Publication/vwLUAssets/ey-uk-2019-transparency-report/\\$FILE/ey-uk-2019-transparency-report.pdf](https://www.ey.com/Publication/vwLUAssets/ey-uk-2019-transparency-report/$FILE/ey-uk-2019-transparency-report.pdf)

Appendices

Appendix A

Fees

The duty to prescribe fees is a statutory function delegated to Public Sector Audit Appointments Ltd (PSAA) by the Secretary of State for Housing, Communities and Local Government.

This is defined as the fee required by auditors to meet statutory responsibilities under the Local Audit and Accountability Act 2014 in accordance with the requirements of the Code of Audit Practice and supporting guidance published by the National Audit Office, the financial reporting requirements set out in the Code of Practice on Local Authority Accounting published by CIPFA/LASAAC, and the professional standards applicable to auditors' work.

	Planned fee 2019/20	Scale fee 2019/20	Final Fee 2018/19
	£	£	£
Total Fee – Code work	98,602	98,602	98,984*
Total fees	98,602	98,602	98,984

The agreed fee presented is based on the following assumptions:

- ▶ Officers meeting the agreed timetable of deliverables;
- ▶ Our accounts opinion and value for money conclusion being unqualified;
- ▶ Appropriate quality of documentation is provided by the Council; and
- ▶ The Council has an effective control environment.

If any of the above assumptions prove to be unfounded, we will seek a variation to the agreed fee. This will be discussed with the Council in advance.

Fees for the auditor's consideration of correspondence from the public and formal objections will be charged in addition to the scale fee.

We are committed to driving greater innovation in the audit through the use of technology. The significant investment costs in this global technology continue to rise as we seek to provide enhanced assurance and insight in the audit. This may affect the audit fee.

All fees exclude VAT

* The 18/19 Code work includes an additional fee of £382, which relates to additional work on housing benefit income and expenditure. PSAA will make a final decision on this additional fee.

For 2019/20, the fee may be impacted by a range of factors resulting in additional work. Any potential additional fee will be discussed with management during the audit and we will report back to the Committee. The planned fee shown above is as at the planning stage of the audit and is subject to change.

Appendix B

Required communications with the Audit Committee

We have detailed the communications that we must provide to the Audit Committee.

		Our Reporting to you
Required communications	What is reported?	When and where
Terms of engagement	Confirmation by the Audit Committee of acceptance of terms of engagement as written in the engagement letter signed by both parties.	The statement of responsibilities serves as the formal terms of engagement between the PSAA's appointed auditors and audited bodies.
Our responsibilities	Reminder of our responsibilities as set out in the engagement letter	The statement of responsibilities serves as the formal terms of engagement between the PSAA's appointed auditors and audited bodies.
Planning and audit approach	Communication of the planned scope and timing of the audit, any limitations and the significant risks identified.	Audit planning report
Significant findings from the audit	<ul style="list-style-type: none"> • Our view about the significant qualitative aspects of accounting practices including accounting policies, accounting estimates and financial statement disclosures • Significant difficulties, if any, encountered during the audit • Significant matters, if any, arising from the audit that were discussed with management • Written representations that we are seeking • Expected modifications to the audit report • Other matters if any, significant to the oversight of the financial reporting process 	Audit results report

Required communications with the Audit Committee (continued)

		Our Reporting to you
Required communications	What is reported?	When and where
Going concern	<p>Events or conditions identified that may cast significant doubt on the entity's ability to continue as a going concern, including:</p> <ul style="list-style-type: none"> • Whether the events or conditions constitute a material uncertainty • Whether the use of the going concern assumption is appropriate in the preparation and presentation of the financial statements • The adequacy of related disclosures in the financial statements 	<p style="text-align: center;">Audit results report</p>
Misstatements	<ul style="list-style-type: none"> • Uncorrected misstatements and their effect on our audit opinion, unless prohibited by law or regulation • The effect of uncorrected misstatements related to prior periods • A request that any uncorrected misstatement be corrected • Corrected misstatements that are significant • Material misstatements corrected by management 	<p style="text-align: center;">Audit results report</p>
Fraud	<ul style="list-style-type: none"> • Enquiries of the Audit Committee to determine whether they have knowledge of any actual, suspected or alleged fraud affecting the entity • Any fraud that we have identified or information we have obtained that indicates that a fraud may exist • A discussion of any other matters related to fraud 	<p style="text-align: center;">Audit results report</p>
Related parties	<ul style="list-style-type: none"> • Significant matters arising during the audit in connection with the entity's related parties including, when applicable: • Non-disclosure by management • Inappropriate authorisation and approval of transactions • Disagreement over disclosures • Non-compliance with laws and regulations • Difficulty in identifying the party that ultimately controls the entity 	<p style="text-align: center;">Audit results report</p>

Required communications with the Audit Committee (continued)

Required communications	What is reported?	When and where
Independence	<p>Communication of all significant facts and matters that bear on EY's, and all individuals involved in the audit, objectivity and independence</p> <p>Communication of key elements of the audit engagement partner's consideration of independence and objectivity such as:</p> <ul style="list-style-type: none"> • The principal threats • Safeguards adopted and their effectiveness • An overall assessment of threats and safeguards • Information about the general policies and process within the firm to maintain objectivity and independence 	<p>Audit planning report Audit results report</p>
External confirmations	<ul style="list-style-type: none"> • Management's refusal for us to request confirmations • Inability to obtain relevant and reliable audit evidence from other procedures 	Audit results report
Consideration of laws and regulations	<ul style="list-style-type: none"> • Audit findings regarding non-compliance where the non-compliance is material and believed to be intentional. This communication is subject to compliance with legislation on tipping off • Enquiry of the Audit Committee into possible instances of non-compliance with laws and regulations that may have a material effect on the financial statements and that the Committee may be aware of 	Audit results report
Internal controls	<ul style="list-style-type: none"> • Significant deficiencies in internal controls identified during the audit 	Audit results report
Representations	Written representations we are requesting from management and/or those charged with governance	Audit results report
Material inconsistencies and misstatements	Material inconsistencies or misstatements of fact identified in other information which management has refused to revise	Audit results report
Auditors report	<ul style="list-style-type: none"> • Any circumstances identified that affect the form and content of our auditor's report 	Audit results report
Fee Reporting	<ul style="list-style-type: none"> • Breakdown of fee information when the audit plan is agreed • Breakdown of fee information at the completion of the audit • Any non-audit work 	<p>Audit planning report Audit results report</p>

Additional audit information

Other required procedures during the course of the audit

In addition to the key areas of audit focus outlined in section 2, we have to perform other procedures as required by auditing, ethical and independence standards and other regulations. We outline the procedures below that we will undertake during the course of our audit.

- Our responsibilities required by auditing standards
- Identifying and assessing the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
 - Obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Council's internal control.
 - Evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Concluding on the appropriateness of management's use of the going concern basis of accounting.
 - Evaluating the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
 - Reading other information published with the financial statements, and reporting whether it is materially inconsistent with our understanding and the financial statements; and
 - Maintaining auditor independence.

Purpose and evaluation of materiality

For the purposes of determining whether the accounts are free from material error, we define materiality as the magnitude of an omission or misstatement that, individually or in the aggregate, in light of the surrounding circumstances, could reasonably be expected to influence the economic decisions of the users of the financial statements. Our evaluation of it requires professional judgement and necessarily takes into account qualitative as well as quantitative considerations implicit in the definition. We would be happy to discuss with you your expectations regarding our detection of misstatements in the financial statements.

Materiality determines:

- The level of work performed on individual account balances and financial statement disclosures.

The amount we consider material at the end of the audit may differ from our initial determination. At this stage, however, it is not feasible to anticipate all of the circumstances that may ultimately influence our judgement about materiality. At the end of the audit we will form our final opinion by reference to all matters that could be significant to users of the accounts, including the total effect of the audit misstatements we identify, and our evaluation of materiality at that date.
