Written question from Peter Scott to the Leader, Isle of Wight Council

I am told work has commenced on the All Saints Site, therefore has a full and complete Asbestos Survey been completed, if not why not ? if yes may I be permitted to examine the survey report / results ?

Response

Initial works have been undertaken on the All Saints' site in order to start to understand the complexities of development. A full asbestos survey has not yet been undertaken and won't be for some time yet.
