MOTION

This Council is appalled at the recent behaviour of the AET Academy Chain in relation to Sandown Academy School. The School is a valuable and important part of the education system on the Isle of Wight and secondary education provision needs to be retained, preserved and promoted in the Bay Area.

In light of the behaviour of AET and the concerns this gives rise to this Council resolves to take such steps as it can to;

1. Approach the relevant Government Office to demand that AET be removed from the role of managing any school on the Isle of Wight.
2. To take steps to either establish or promote and encourage the establishment of an accountable new local body to take on the management and running of Sandown Bay Academy.
