

FULL COUNCIL – WEDNESDAY, 16 NOVEMBER 2016

Written question from Councillors Julie Jones-Evans and Matthew Price to Councillor Shirley Smart, Executive Member for Public Transport, Tourism, Recreation and Heritage

You may recall that you have recently seen a presentation for a vision for the regeneration of Newport Harbour. Given that Newport Harbour has been specifically mentioned as a potential regeneration area, (hence the Harbour Revision Order) the time would seem ideal for such a vision to be looked at more closely. Would you agree to be part of and help formulate a new group (including Cllrs Price and Jones-Evans as local members for the majority of the Harbour) which will be considering the vision in more detail?

Response

Members will be aware that there is a now a Harbour user group which has been meeting for over a year. The group has been very successful and there is representation from many parties who are interested in shaping the future of the harbour. Local members are invited to the group and attend on a regular basis. There seems little need to set up a further group when it is important that users and local members discuss the regeneration of the harbour in a transparent manner in such a forum.
