

HEALTH AND WELLBEING BOARD – THURSDAY, 30 JUNE 2016

Written question from Gill Kennett chairman of the Isle of Wight Association of Local Councils to Councillor Steve Stubbings, Chairman of Health and Wellbeing Board.

IWALC understand that the governance of the Health and Wellbeing Board is currently under review. Please could we ask how Town and Parish Councils have been involved in this review and their views, as the first level of local government, represented in the proposals going forward?

Response

You will be aware that the council is currently reviewing the construction and effectiveness of the H&W being Board with the assistance of the Local Government Association. This will undoubtedly lead to some changes to the Board in the future but what these changes may be are as yet unclear.

we welcome the opportunity to discuss the review and proposals with the Town and Parish representatives, in addition we will welcome their views on local engagement especially at area level.
