

HEALTH AND WELLBEING BOARD – WEDNESDAY, 28 SEPTEMBER 2016

Written question from Graham Drudge, inclusion Development Officer of People Matter IW to Councillor Steve Stubbings, Chairman of Health and Wellbeing Board.

How effective does the board feel the Isle of Wight council and Health Authorities are, across all relevant sectors, in adopting what is known as 'the person centred approach' to their work?

Response

I can confirm that an officer from the Adult Social Care Commissioning team has been tasked with clarifying the content of your submission and seeking further details of the issues raised. I understand that an initial meeting with People Matter has taken place.
