

Quarterly Reporting Template - Guidance

Notes for Completion

The data collection template requires the Health & Wellbeing Board to track through the high level metrics and deliverables from the Health & Wellbeing Board Better Care Fund plan.

The completed return will require sign off by the Health & Wellbeing Board.

A completed return must be submitted to the Better Care Support Team inbox (england.bettercaresupport@nhs.net) by midday on 3rd March 2017.

The BCF Q3 Data Collection

This Excel data collection template for Q3 2016-17 focuses on budget arrangements, the national conditions, income and expenditure to and from the fund, and performance on BCF metrics.

To accompany the quarterly data collection Health & Wellbeing Boards are required to provide a written narrative into the final tab to contextualise the information provided in this report and build on comments included elsewhere in the submission. This should include an overview of progress with your BCF plan, the wider integration of health and social care services, and a consideration of any variances against planned performance trajectories or milestones.

Cell Colour Key

Data needs inputting in the cell

Pre-populated cells

Question not relevant to you

Throughout this template cells requiring a numerical input are restricted to values between 0 and 100,000,000.

Content

The data collection template consists of 8 sheets:

Checklist - This contains a matrix of responses to questions within the data collection template.

1) Cover Sheet - this includes basic details and tracks question completion.

2) Budget arrangements - this tracks whether Section 75 agreements are in place for pooling funds.

3) National Conditions - checklist against the national conditions as set out in the BCF Policy Framework 16-17 and BCF planning guidance.

4) Income and Expenditure - this tracks income into, and expenditure from, pooled budgets over the course of the year.

5) Supporting Metrics - this tracks performance against the two national metrics, a DTOC metric, a Non-Elective Admissions metric, locally set metric and locally defined patient experience metric in BCF plans.

6) Additional Measures - additional questions on new metrics that are being developed to measure progress in developing integrated, coordinated, and person centred care.

7) Narrative - this allows space for the description of overall progress on BCF plan delivery and performance against key indicators.

Checklist

This sheet contains all the validations for each question in the relevant sections.

All validations have been coloured so that if a value does not pass the validation criteria the cell will be Red and contain the word "No" and if they pass validation they will be coloured Green and contain the word "Yes".

1) Cover Sheet

On the cover sheet please enter the following information:

The Health and Well Being Board

Who has completed the report, email and contact number in case any queries arise

Please detail who has signed off the report on behalf of the Health and Well Being Board

Question completion tracks the number of questions that have been completed, when all the questions in each section of the template have been completed the cell will turn green. Only when all 7 cells are green should the template be sent to england.bettercaresupport@nhs.net

2) Budget Arrangements

This section requires the Health & Wellbeing Board to confirm if funds have been pooled via a Section 75 agreement. Please answer as at the time of completion.

If it had not been previously stated that the funds had been pooled can you now confirm that they have now?

If the answer to the above is 'No' please indicate when this will happen

3) National Conditions

This section requires the Health & Wellbeing Board to confirm whether the eight national conditions detailed in the Better Care Fund Policy Framework 16/17 (https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/490559/BCF_Policy_Framework_2016-17.pdf) and Better Care Fund Planning Guidance 16/17 (<http://www.england.nhs.uk/ourwork/part-rel/transformation-fund/bcf-plan/>) have been met through the delivery of your plan. Please answer as at the time of completion.

It sets out the eight conditions and requires the Health & Wellbeing Board to confirm 'Yes', 'No' or 'No - In Progress' that these have been met. Should 'No' or 'No - In Progress' be selected, please provide an estimated date when condition will be met, an explanation as to why the condition was not met within the year (in-line with signed off plan) and how this is being addressed.

Full details of the conditions are detailed at the bottom of the page.

4) Income and Expenditure

This tracks income into, and expenditure from, pooled budgets over the course of the year. This requires provision of the following information:

Forecasted income into the pooled fund for each quarter of the 2016-17 financial year
Actual income into the pooled fund in Q1, Q2 & Q3 2016-17
Forecasted expenditure from the pooled fund for each quarter of the 2016-17 financial year
Actual expenditure from the pooled fund in Q1, Q2 & Q3 2016-17

Figures should reflect the position by the end of each quarter. It is expected that the total planned income and planned expenditure figures for 2016-17 should equal the total pooled budget for the Health and Wellbeing Board.

There is also an opportunity to provide a commentary on progress which should include reference to any deviation from plan or amendments to forecasts made since the previous quarter.

5) Supporting Metrics

This tab tracks performance against the two national supporting metrics, a Delayed Transfers of Care metric, a Non-Elective Admissions metric, the locally set metric, and the locally defined patient experience metric submitted in approved BCF plans. In all cases the metrics are set out as defined in the approved plan for the HWB and the following information is required for each metric:

An update on indicative progress against the six metrics for Q3 2016-17
Commentary on progress against each metric

If the information is not available to provide an indication of performance on a measure at this point in time then there is a drop-down option to indicate this. Should a patient experience metric not have been provided in the original BCF plan or previous data returns there is an opportunity to state the metric that you are now using.

Guidance on accessing CCG based NEA numerator data from SUS via the 'Activity and Planning Report' has been circulated in tandem with this report in order to enable areas to perform their own in year monitoring of NEA data. This guidance document can also be accessed via the embed object below.

NEA denominator population (All ages) projections are based on Subnational Population Projections, Interim 2014-based (published May 2016) found here:

<http://www.ons.gov.uk/peoplepopulationandcommunity/populationandmigration/populationprojections/datasets/localauthoritiesinenglandz1>

Please note that the Non-Elective Admissions per 100,000 population (All ages) population projections are based on a calendar year.

Delayed Transfers Of Care numerator data for actual performance has been sourced from the monthly DTOC return found here:

<http://www.england.nhs.uk/statistics/statistical-work-areas/delayed-transfers-of-care/>

DTOC denominator population (18+) projections are based on Subnational Population Projections, Interim 2014-based (published May 2016) found here:

<http://www.ons.gov.uk/peoplepopulationandcommunity/populationandmigration/populationprojections/datasets/localauthoritiesinenglandz1>

Please note that the Delayed Transfers Of Care (delayed days) from hospital per 100,000 population (aged 18+) population projections are based on a calendar year.

Actual and baseline data on Re-ablement and Residential Admissions can be sourced from the annual ASCOF return found here:

<http://content.digital.nhs.uk/searchcatalogue?productid=22085&q=ascof>

Please note these are annual measures and the latest data for 2015/16 data was published 05/10/2016. Plan data for these metrics in 2016/17 were submitted by HWBs within Submission 4 planning returns and final figures are displayed within the 'Remaining Metrics Enquiry' tab of the Submission 4 report.

6) Additional Measures

This tab includes a handful of new metrics designed with the intention of gathering some detailed intelligence on local progress against some key elements of person-centred, co-ordinated care. Following feedback from colleagues across the system these questions have been modified from those that appeared in last years BCF Quarterly Data Collection Template (Q2/Q3/Q4 2015-16). Nonetheless, they are still in draft form, and the Department of Health are keen to receive feedback on how they could be improved / any complications caused by the way that they have been posed.

For the question on progress towards instillation of Open APIs, if an Open API is installed and live in a given setting, please state 'Live' in the 'Projected 'go-live' date field.

For the question on use and prevalence of Multi-Disciplinary/Integrated Care Teams please choose your answers based on the proportion of your localities within which Multi-Disciplinary/Integrated Care Teams are in use.

For the PHB metric, areas should include all age groups, as well as those PHBs that form part of a jointly-funded package of care which may be administered by the NHS or by a partner organisation on behalf of the NHS (e.g. local authority). Any jointly funded personal budgets that include NHS funding are automatically counted as a personal health budget. We have expanded this definition following feedback received during the Q3 reporting process, and to align with other existing PHB data collections.

7) Narrative

In this tab HWBs are asked to provide a brief narrative on overall progress, reflecting on performance in Q3 16/17.

A recommendation would be to offer a narrative around the stocktake themes as below:

Highlights and successes

What would you consider to be your most significant area of success, or development since the last quarter? What has contributed to this improvement?

Challenges and concerns

Does the information on National Conditions and Supporting metrics point to any issues or areas of improvement? Are there any new anticipated challenges for the coming quarter?

Potential actions and support

What actions could be taken and what support could be offered to address performance challenges and capitalise on successes for subsequent quarters?

Better Care Fund Template Q3 2016/17

Data Collection Question Completion Checklist

1. Cover

Health and Well Being Board	completed by:	e-mail:	contact number:	Who has signed off the report on behalf of the Health and Well Being Board:
Yes	Yes	Yes	Yes	Yes

2. Budget Arrangements

Funds pooled via a S.75 pooled budget? If not previously stated that the funds had been pooled can you confirm that they have now? If no, date provided?
No

3. National Conditions

	7 day services				
	1) Are the plans still jointly agreed?	2) Maintain provision of social care services	3) Agreement for the delivery of 7-day services across health and social care to prevent unnecessary non-elective admissions to acute settings and to facilitate transfer to alternative care settings when clinically appropriate	3ii) Are support services, both in the hospital and in primary, community and mental health settings available seven days a week to ensure that the next steps in the patient's care pathway, as determined by the daily consultant-led review, can be taken (Standard 9)?	4) Is the NHS Number being used as the consistent identifier for health and social care services?
Please Select (Yes, No or No - In Progress)	Yes	Yes	Yes	Yes	Yes
If the answer is "No" or "No - In Progress" please enter estimated date when condition will be met if not already in place (DD/MM/YYYY)	Yes	No	Yes	Yes	Yes
If the answer is "No" or "No - In Progress" please provide an explanation as to why the condition was not met within the quarter (in-line with signed off plan) and how this is being addressed?	Yes	Yes	Yes	Yes	Yes

4. I&E

		Q1 2016/17	Q2 2016/17	Q3 2016/17
Income to	Forecast	Yes	Yes	Yes
	Actual	Yes	Yes	Yes
	Please comment if there is a difference between the annual totals and the pooled fund	Yes		
Expenditure From	Forecast	Yes	Yes	Yes
	Actual	Yes	Yes	Yes
	Please comment if there is a difference between the annual totals and the pooled fund	Yes		
Commentary on progress against financial plan:		Yes		

5. Supporting Metrics

		Please provide an update on indicative progress against the metric?	Commentary on progress
NEA	Yes	Yes	Yes

Who has signed off the report on behalf of the Health and Well Being Board:

Dr John Rivers and Cllr Richard Priest

Question Completion - when all questions have been answered and the validation boxes below have turned green you should send the template to england.bettercaresupport@nhs.net saving the file as 'Name HWB' for example 'County Durham HWB'

	No. of questions answered
1. Cover	5
2. Budget Arrangements	0
3. National Conditions	35
4. I&E	17
5. Supporting Metrics	13
6. Additional Measures	67
7. Narrative	1

Budget Arrangements

Selected Health and Well Being Board:

Isle of Wight

Have the funds been pooled via a s.75 pooled budget?	No
If it had not been previously stated that the funds had been pooled can you confirm that they have now?	No
If the answer to the above is 'No' please indicate when this will happen (DD/MM/YYYY)	

Footnotes:

Source: For the S.75 pooled budget question, which is pre-populated, the data is from a previous quarterly collection returned by the HWB.

National Conditions

Selected Health and Well Being Board:

Isle of Wight

The Spending Round established six national conditions for access to the Fund.
 Please confirm by selecting 'Yes', 'No' or 'No - In Progress' against the relevant condition as to whether these have been met, as per your final BCF plan.
 Further details on the conditions are specified below.
 If 'No' or 'No - In Progress' is selected for any of the conditions please include an explanation as to why the condition was not met within this quarter (in-line with signed off plan) and how this is being addressed?

Condition (please refer to the detailed definition below)	Q1 Submission Response	Q2 Submission Response	Please Select ('Yes', 'No' or 'No - In Progress')	If the answer is "No" or "No - In Progress" please enter estimated date when condition will be met if not already in place (DD/MM/YYYY)	If the answer is "No" or "No - In Progress" please provide an explanation as to why the condition was not met within the quarter and how this is being addressed:
1) Plans to be jointly agreed	Yes	Yes	Yes		
2) Maintain provision of social care services	No	No	No		In 2015/16 the CCG was able to contribute to the Local Authority £3.513m which was the allocation for the NHS Support to Social Care i.e. the CCG's allocation for NHS Support to Social Care. As well as this, the CCG was in a position to provide an additional £3.1m (of which £2.1m was non-recurrent) to support the Local Authority's £3.1m gap in social care funding.
3) In respect of 7 Day Services - please confirm:					
i) Agreement for the delivery of 7-day services across health and social care to prevent unnecessary non-elective admissions to acute settings and to facilitate transfer to alternative care settings when clinically appropriate	No - In Progress	No - In Progress	No - In Progress	31/03/2017	This has commenced with the introduction of four priority standards which are being rolled out across the country. The Island has offered to be in the second cohort to implement these standards. Good Progress has been made although some 7 day services are still in development and will take a longer timeframe to be fully established. Services in place: 7 day a week reablement ; 7 day a week night sitting service in development; 7 day a week physio services; 7 day a week 'communications hub'; 7 day a week GP; 7 day a week Crisis Response service; District nurses; Wightcare; respite services; rehabilitation beds. We will continue to review and evaluate the introduction of 7 day services in the hospital and community.
ii) Are support services, both in the hospital and in primary, community and mental health settings available seven days a week to ensure that the next steps in the patient's care pathway, as determined by the daily consultant-led review, can be taken (Standard 9)?	No - In Progress	No - In Progress	No - In Progress	31/03/2017	ii) Some necessary support services are in place 7 days a week. Others are requiring further development in line with the implementation of 7 day services across health and social care. We anticipate that further support services will be in place by March 2017
4) In respect of Data Sharing - please confirm:					
i) Is the NHS Number being used as the consistent identifier for health and social care services?	Yes	Yes	Yes		
ii) Are you pursuing Open APIs (ie system that speak to each other)?	Yes	Yes	Yes		
iii) Are the appropriate Information Governance controls in place for information sharing in line with the revised Caldicott Principles and guidance?	Yes	Yes	Yes		
iv) Have you ensured that people have clarity about how data about them is used, who may have access and how they can exercise their legal rights?	Yes	Yes	Yes		
5) Ensure a joint approach to assessments and care planning and ensure that, where funding is used for integrated packages of care, there will be an accountable professional	Yes	Yes	Yes		
6) Agreement on the consequential impact of the changes on the providers that are predicted to be substantially affected by the plans	Yes	Yes	Yes		
7) Agreement to invest in NHS commissioned out-of-hospital services	Yes	Yes	Yes		
8) Agreement on a local target for Delayed Transfers of Care (DTOC) and develop a joint local action plan	Yes	Yes	Yes		

National conditions - detailed definitions

The BCF policy framework for 2016-17 and BCF planning guidance sets out eight national conditions for access to the Fund:

1) Plans to be jointly agreed

The Better Care Fund Plan, covering a minimum of the pooled fund specified in the Spending Review, and potentially extending to the totality of the health and care spend in the Health and Wellbeing Board area, should be signed off by the Health and Wellbeing Board itself, and by the constituent Councils and Clinical Commissioning Groups.

In agreeing the plan, Clinical Commissioning Groups and local authorities should engage with health and social care providers likely to be affected by the use of the fund in order to achieve the best outcomes for local people. Furthermore, there should be joint agreement across commissioners and providers as to how the Better Care Fund will contribute to a longer term strategic plan. This should include an assessment of future capacity and workforce requirements across the system. The implications for local providers should be set out clearly for Health and Wellbeing Boards so that their agreement for the deployment of the fund includes recognition of the service change consequences. The Disabled Facilities Grant (DFG) will again be allocated through the Better Care Fund. Local housing authority representatives should therefore be involved in developing and agreeing the plan, in order to ensure a joined-up

2) Maintain provision of social care services

Local areas must include an explanation of how local adult social care services will continue to be supported within their plans in a manner consistent with 2015-16.

The definition of support should be agreed locally. As a minimum, it should maintain in real terms the level of protection as provided through the mandated minimum element of local Better Care Fund agreements of 2015-16. This reflects the real terms increase in the Better Care Fund.

In setting the level of protection for social care localities should be mindful to ensure that any change does not destabilise the local social and health care system as a whole. This will be assessed compared to 2015-16 figures through the regional assurance process.

It should also be consistent with 2012 Department of Health guidance to NHS England on the funding transfer from the NHS to social care in 2013-14:

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/213223/Funding-transfer-from-the-NHS-to-social-care-in-2013-14.pdf

3) Agreement for the delivery of 7-day services across health and social care to prevent unnecessary non-elective (physical and mental health) admissions to acute settings and to facilitate transfer to alternative care settings when clinically appropriate.

Local areas are asked to confirm how their plans will provide 7-day services (throughout the week, including weekends) across community, primary, mental health, and social care in order:

- To prevent unnecessary non-elective admissions (physical and mental health) through provision of an agreed level of infrastructure across out of hospital services 7 days a week;
- To support the timely discharge of patients, from acute physical and mental health settings, on every day of the week, where it is clinically appropriate to do so, avoiding unnecessary delayed discharges of care. If they are not able to provide such plans, they must explain why.

The 10 clinical standards developed by the NHS Services, Seven Days a Week Forum represent, as a whole, best practice for quality care on every day of the week and provide a useful reference for commissioners (<https://www.england.nhs.uk/wp-content/uploads/2013/12/clinical-standards1.pdf>).

By 2020 all hospital in-patients admitted through urgent and emergency routes in England will have access to services which comply with at least 4 of these standards on every day of the week, namely Standards 2, 5, 6 and 8. For the Better Care Fund, particular consideration should be given to whether progress is being made against Standard 9. This standard highlights the role of support services in the provision of the next steps in a person's care pathway following admission to hospital, as determined by the daily consultant-led review, and the importance of effective relationships between medical and other health and social care teams.

4) Better data sharing between health and social care, based on the NHS number

The appropriate and lawful sharing of data in the best interests of people who use care and support is essential to the provision of safe, seamless care. The use of the NHS number as a consistent identifier is an important element of this, as is progress towards systems and processes that allow the safe and timely sharing of information. It is also vital that the right cultures, behaviours and leadership are demonstrated locally, fostering a culture of secure, lawful and appropriate sharing of data to support better care.

Local areas should:

- confirm that they are using the NHS Number as the consistent identifier for health and care services, and if they are not, when they plan to;
- confirm that they are pursuing interoperable Application Programming Interfaces (APIs) (i.e. systems that speak to each other) with the necessary security and controls (<https://www.england.nhs.uk/wp-content/uploads/2014/05/open-api-policy.pdf>); and
- ensure they have the appropriate Information Governance controls in place for information sharing in line with the revised Caldicott principles and guidance made available by the Information Governance Alliance (IGA), and if not, when they plan for it to be in place.
- ensure that people have clarity about how data about them is used, who may have access and how they can exercise their legal rights. In line with the recommendations from the National Data Guardian review.

The Information Governance Alliance (IGA) is a group of national health and care organisations (including the Department of Health, NHS England, Public Health England and the Health and Social Care Information Centre) working together to provide a joined up and consistent approach to information governance and provide access to a central repository guidance on data access issues for the health and care system. See - <http://systems.hscic.gov.uk/infogov/iga>

5) Ensure a joint approach to assessments and care planning and ensure that, where funding is used for integrated packages of care, there will be an accountable professional

Local areas should identify which proportion of their population will be receiving case management and named care coordinator, and which proportions will be receiving self-management help - following the principles of person-centred care planning. Dementia services will be a particularly important priority for better integrated health and social care services, supported by care coordinators, for example dementia advisors.

6) Agreement on the consequential impact of the changes on the providers that are predicted to be substantially affected by the plans

The impact of local plans should be agreed with relevant health and social care providers. Assurance will also be sought on public and patient and service user engagement in this planning, as well as plans for political buy-in. This should complement the planning guidance issued to NHS organisations.

There is agreement that there is much more to be done to ensure mental and physical health are considered equal and better integrated with one another, as well as with other services such as social care. Plans should therefore give due regard to this.

7) Agreement to invest in NHS commissioned out of hospital services, which may include a wide range of services including social care

Local areas should agree how they will use their share of the £1 billion that had previously been used to create the payment for performance fund.

This should be achieved in one of the following ways:

- To fund NHS commissioned out-of-hospital services, which may include a wide range of services including social care, as part of their agreed Better Care Fund plan; or

- Local areas can choose to put an appropriate proportion of their share of the £1bn into a local risk-sharing agreement as part of contingency planning in the event of excess activity, with the balance spent on NHS commissioned out-of-hospital services, which may include a wide range of services including social care (local areas should seek, as a minimum, to maintain provision of NHS commissioned out of hospital services in a manner consistent with 15-16);

This condition replaces the Payment for Performance scheme included in the 2015-16 Better Care Fund framework.

8) Agreement on local action plan to reduce delayed transfers of care (DTOC)

Given the unacceptable high levels of DTOC currently, the Government is exploring what further action should be taken to address the issue.

As part of this work, under the Better Care Fund, each local area is to develop a local action plan for managing DTOC, including a locally agreed target.

All local areas need to establish their own stretching local DTOC target - agreed between the CCG, Local Authority and relevant acute and community trusts. This target should be reflected in CCG operational plans. The metric for the target should be the same as the national performance metric (average delayed transfers of care (delayed days) per 100,000 population (attributable to either NHS, social care or both) per month).

As part of this plan, we want local areas to consider the use of local risk sharing agreements with respect to DTOC, with clear reference to existing guidance and flexibilities. This will be particularly relevant in areas where levels of DTOC are high and rising.

In agreeing the plan, Clinical Commissioning Groups and local authorities should engage with the relevant acute and community trusts and be able to demonstrate that the plan has been agreed with the providers given the need for close joint working on the DTOC issue.

We would expect plans to:

- Set out clear lines of responsibility, accountabilities, and measures of assurance and monitoring;
- Take account of national guidance, particularly the NHS High Impact Interventions for Urgent and Emergency Care, the NHS England Monthly Delayed Transfers of Care Situation Reports Definition and Guidance, and best practice with regards to reducing DTOC from LGA and ADASS;
 - Demonstrate how activities across the whole patient pathway can support improved patient flow and DTOC performance, specifically around admissions avoidance;
 - Demonstrate consideration to how all available community capacity within local geographies can be effectively utilised to support safe and effective discharge, with a shared approach to monitoring this capacity;
- Demonstrate how CCGs and Local Authorities are working collaboratively to support sustainable local provider markets, build the right capacity for the needs of the local population, and support the health and care workforce - ideally through joint commissioning and workforce strategies;
 - Demonstrate engagement with the independent and voluntary sector providers.

Plan, forecast, and actual figures for total income into, and total expenditure from, the fund for each quarter to year end (in both cases the year-end figures should equal the total pooled fund)

Selected Health and Well Being Board:

Isle of Wight

Income

Previously returned data:

		Q1 2016/17	Q2 2016/17	Q3 2016/17	Q4 2016/17	Annual Total	Pooled Fund

		Q1 2016/17	Q2 2016/17	Q3 2016/17	Q4 2016/17	Annual Total	Pooled Fund
Please provide , plan , forecast, and actual of total income into the fund for each quarter to year end (the year figures should equal the total pooled fund)	Plan	£7,833,099	£7,833,099	£7,833,099	£7,833,099	£31,332,396	£31,332,396
	Forecast	£8,870,352	£7,209,311	£7,293,188	£7,293,188	£30,666,039	
	Actual*	£8,448,544	£6,702,206				

Q3 2016/17 Amended Data:

		Q1 2016/17	Q2 2016/17	Q3 2016/17	Q4 2016/17	Annual Total	Pooled Fund
Please provide, plan, forecast and actual of total expenditure from the fund for each quarter to year end (the year figures should equal the total pooled fund)	Plan	£7,833,099	£7,833,099	£7,833,099	£7,833,099	£31,332,396	£31,332,396
	Forecast	£8,870,352	£7,209,311	£7,293,188	£7,541,794	£30,914,645	
	Actual*	£8,448,544	£6,702,206	£6,915,998			

Please comment if one of the following applies:
 - There is a difference between the forecasted annual total and the pooled fund
 - The Q3 actual differs from the Q3 plan and / or Q3 forecast

There is still a significant underspend forecast within the budget relating mainly to planned CCG savings to support the CCG predicted financial deficit.

Commentary on progress against financial plan:

There is still a significant underspend forecast within the budget relating mainly to planned CCG savings to support the CCG predicted financial deficit.
 The BCF Section 75 is not signed and we are operating as an aligned budget.

Footnotes:

*Actual figures should be based on the best available information held by Health and Wellbeing Boards.
 Source: For the pooled fund which is pre-populated, the data is from a quarterly collection previously filled in by the HWB. Pre-populated Plan figures are sourced from the Q1 16/17 collection whilst Forecast, Q1 and Q2 Actual figures are sourced from the Q2 16/17 return previously submitted by the HWB.

National and locally defined metrics

Selected Health and Well Being Board:

Isle of Wight

Non-Elective Admissions	Reduction in non-elective admissions
Please provide an update on indicative progress against the metric?	No improvement in performance
Commentary on progress:	Non Elective admissions for Quarter 3 were 7.3% above trajectory in the quarter driven largely by significant over performance in December (183 admissions). The underlying causes for this are being explored through the System Resilience (A&E Delivery) Board and initial analysis has identified a stepped increase in emergency admissions following an A&E attendance. This increase is disproportionate to the level of total accident and emergency attendances, which has decreased. The increase seen is mainly for short stay admissions with a primary diagnosis of pneumonia, COPD, MIs (myocardial infarction) or lower respiratory. This will be investigated further.
Delayed Transfers of Care	Delayed Transfers of Care (delayed days) from hospital per 100,000 population (aged 18+)
Please provide an update on indicative progress against the metric?	No improvement in performance
Commentary on progress:	Concern has been expressed about accuracy of the data and further work is being undertaken to ensure that we have robust data collection and validation systems. The recent visit (22 and 23 February 2017) of ECIP examined patient streaming, patient flow and discharge in detail. Although we await the report, their feedback reiterated our own concerns with the accuracy of the data, especially pertaining to the absence of any DTOCS jointly attributable to health and social care in December 2016; the inclusion of people who were medically unfit for discharge; and the inclusion of self funders.
Local performance metric as described in your approved BCF plan	Reduction in Community Occupational Therapy waiting time in weeks to First Assessment (95% Percentile). BCF and other Schemes
Please provide an update on indicative progress against the metric?	On track to meet target
Commentary on progress:	Waiting times were mostly maintained in the quarter, increase to 10.3 weeks from 8.6 weeks. Still well below trajectory of 36 weeks
Local defined patient experience metric as described in your approved BCF plan	Overall satisfaction of people who use services with their care and support (ASCOF 3a)
If no local defined patient experience metric has been specified, please give details of the local defined patient experience metric now being used.	
Please provide an update on indicative progress against the metric?	On track to meet target
Commentary on progress:	Outturn result for 2015/16 saw an increase to 73% - which shows excellent progress during a difficult and challenging period for social care. The annual survey result for 2016/17 will not be sent out until Jan 2017 so actual results will not be available until end of 30 April 2017 at the earliest.
Admissions to residential care	Rate of permanent admissions to residential care per 100,000 population (65+)
Please provide an update on indicative progress against the metric?	No improvement in performance
Commentary on progress:	The number of permanent residential placements is still increasing. Work has been undertaken through Q3 to address the number of residential placements that are recorded as short term but subsequently become permanent. This is because, whilst medically fit for discharge, these people are leaving hospital still very unwell and in need of intensive convalescence – but during this convalescence period they are not receiving the rehabilitation and reablement they require. Recent work through the Council's Single Point of Commissioning and social work teams has resulted in the review of all short term placements – and this is why there has been such a marked “spike” in the numbers admitted. Henceforth, reviews for all short term placements will take place within one week – and we are addressing the level of care home inreach that community nursing, rehabilitation and reablement teams can provide to those people on short term orders. Work continues through commissioning to identify and source alternatives to residential care but these will be delivered in the longer term. Funding panel remains in place to ensure all placements are essential.

Additional Measures

Selected Health and Well Being Board:

Isle of Wight

Improving Data Sharing: (Measures 1-3)

1. Proposed Measure: Use of NHS number as primary identifier across care settings

	GP	Hospital	Social Care	Community	Mental health	Specialised palliative
NHS Number is used as the consistent identifier on all relevant correspondence relating to the provision of health and care services to an individual	Yes	Yes	Yes	Yes	Yes	Yes
Staff in this setting can retrieve relevant information about a service user's care from their local system using the NHS Number	Yes	Yes	Yes	Yes	Yes	Yes

2. Proposed Measure: Availability of Open APIs across care settings

Please indicate across which settings relevant service-user information is currently being shared digitally (via Open APIs or interim solutions)

	To GP	To Hospital	To Social Care	To Community	To Mental health	To Specialised palliative
From GP	Shared via Open API	Shared via Open API	Not currently shared digitally	Not currently shared digitally	Not currently shared digitally	Not currently shared digitally
From Hospital	Shared via Open API	Shared via Open API	Shared via Open API	Shared via Open API	Shared via Open API	Not currently shared digitally
From Social Care	Not currently shared digitally	Not currently shared digitally	Not currently shared digitally	Shared via Open API	Shared via Open API	Not currently shared digitally
From Community	Not currently shared digitally	Not currently shared digitally	Not currently shared digitally	Not currently shared digitally	Not currently shared digitally	Not currently shared digitally
From Mental Health	Shared via Open API	Not currently shared digitally	Shared via Open API	Shared via Open API	Not currently shared digitally	Not currently shared digitally
From Specialised Palliative	Not currently shared digitally	Not currently shared digitally	Shared via Open API	Not currently shared digitally	Not currently shared digitally	Not currently shared digitally

In each of the following settings, please indicate progress towards instillation of Open APIs to enable information to be shared with other organisations

	GP	Hospital	Social Care	Community	Mental health	Specialised palliative
Progress status	In development	In development	In development	In development	In development	In development
Projected 'go-live' date (dd/mm/yy)	31/03/17	31/03/17	31/03/17	31/03/17	31/03/17	31/03/17

3. Proposed Measure: Is there a Digital Integrated Care Record pilot currently underway?

Is there a Digital Integrated Care Record pilot currently underway in your Health and Wellbeing Board area?	Pilot being scoped
---	--------------------

Other Measures: Measures (4-5)

4. Proposed Measure: Number of Personal Health Budgets per 100,000 population

Total number of PHBs in place at the end of the quarter	37
Rate per 100,000 population	26.4

Number of new PHBs put in place during the quarter	3
Number of existing PHBs stopped during the quarter	1
Of all residents using PHBs at the end of the quarter, what proportion are in receipt of NHS Continuing Healthcare (%)	100%

Population (Mid 2016)	139,922
-----------------------	---------

5. Proposed Measure: Use and prevalence of Multi-Disciplinary/Integrated Care Teams

Are integrated care teams (any team comprising both health and social care staff) in place and operating in the non-acute setting?	Yes - in some parts of Health and Wellbeing Board area
Are integrated care teams (any team comprising both health and social care staff) in place and operating in the acute setting?	Yes - in some parts of Health and Wellbeing Board area

Footnotes:

Population projections are based on Subnational Population Projections, Interim 2014-based (published May 2016).

<http://www.ons.gov.uk/peoplepopulationandcommunity/populationandmigration/populationprojections/datasets/localauthoritiesinenglandz1>

Population figures were updated to the mid-year 2016 estimates as we moved into the new calendar year.

Narrative

Selected Health and Well Being Board:

Isle of Wight

Remaining Characters

30,429

Please provide a brief narrative on overall progress, reflecting on performance in Q3 16/17. A recommendation would be to offer a narrative around the stocktake themes as below:

Highlights and successes

What would you consider to be your most significant area of success, or development since the last quarter? What has contributed to this improvement?

Challenges and concerns

Does the information on National Conditions and Supporting metrics point to any issues or areas of improvement? Are there any new anticipated challenges for the coming quarter?

Potential actions and support

What actions could be taken and what support could be offered to address performance challenges and capitalise on successes for subsequent quarters?

HIGHLIGHTS & SUCCESSES

There have been no major changes in Quarter 3.

- Integrated Locality Service - During this quarter agreement was reached that the Integrated Locality Service (ILS) would be rolled out in North East locality in the first instance, as there is already a working base for colocation. This provides the opportunity to take the lessons learnt from the initial roll-out to ensure the success of future roll-outs in Central & West and South localities. Significant work has been undertaken during the quarter to allow the North East Integrated Locality Service to go live on the 27 February 2017.
- LD Services – The LGA undertook a peer review of learning disabilities in late January 2017 and their report was received on the 28 February 2017. The report provides for a comprehensive programme for reform whereby we need to: develop alternative community options to residential care (including supported living); promote community inclusion options including employment opportunities; and embed more personalized approaches. A bid for £475k in Housing Technology funding has been successful and will be used to support increased take up in assistive technology, safeguard some housing units and develop home ownership options (including shared equity) for people with a learning disability in conjunction with local housing trust.
- Prevention – At the end of Q3 6 Local Area Coordinators are working alongside 487 people. Agreement was reached in Q3 to recruit further 3 Local Area Coordinators as per Better Care Fund schedule, to cover Newport and surrounding areas to start 9th January 2017. An expression of interest has been accepted to work as one of 9 areas nationally with the New Care Models Team Empowering People and Communities work stream.

CHALLENGES & CONCERNS

Our biggest challenge is that the BCF Section 75 will not be signed as the CCG cannot offer the additional level of support to social care to bridge their funding gap, however, this is not stopping us from continuing to implement our BCF Plans and we are working with an aligned budget.

We have secured the services of a Better Care Advisor (Andrew Cozens) to help us move forward in developing pooled arrangements for 17/18.

Further detail is outlined under Tab 3 - National Conditions 2) Maintain Provision of Social Care Services.
