Item	<u>Waste Service Operational policy for Collection of Waste and Recycling</u>	
Reference	11/19	
Notice of Decision Published	Thursday, 18 July 2019	
Decision taken	To agree the review of the Operational Waste and Recycling Collections Policy	
Reason for decision	If the policy is not updated, the policy will sit in conflict with the methodology for collection of waste and recycling set out in the Contract awarded and risk the achievement of the recycling and composting targets set out in the Corporate Plan 2017-18 and in the Island Plan Core Strategy. This is due to the current and outdated policy still referring to the collection of black bags without restriction at the kerbside and lack of clarity on which waste are collected for free and those waste for which the council can charge.	
Additional reasons	The policy updates provide clear indications on reasonable adjustments	
Options considered and rejected	Not to agree the Operational Waste and Recycling Collections Policy.
