

Purpose: For Action

# Committee Report

Committee	<b>LOCAL PENSION BOARD</b>
Date	<b>17 JANUARY 2023</b>
Title	<b>DRAFT FUNDING STRATEGY STATEMENT 2023 CONSULTATION</b>
Report of	<b>PENSION FUND MANAGER</b>

## EXECUTIVE SUMMARY

1. This report presents the draft Funding Strategy Statement for the Isle of Wight Council Pension Fund updated to reflect the 31 March 2022 formal valuation of the fund.
2. Presentation of this document to the local pension board forms part of the consultation process prior to the adoption of the Funding Strategy Statement by the Pension Committee before 31 March 2023.

## RECOMMENDATION

3. That board members note the process for the review and update of the Funding Strategy Statement, including consultation with interested parties.
4. That the board agree to participate in the consultation process and provide comments back to the Pension Fund Manager by Friday 27 January 2023.

## BACKGROUND

5. The main purpose of the formal valuation of the Isle of Wight Council Pension Fund (the fund) is to review funding plans to ensure they are fit for purpose and set contribution rates payable by participating employers within the fund. The valuation is a statutory requirement and is a health check of the fund and its funding plan.
6. As part of the valuation process, the fund is required to prepare a Funding Strategy Statement (FSS). It is a regulatory requirement for the fund to have a FSS and it is reviewed every three years in collaboration with the Fund's actuary Hymans Robertson LLP during the valuation process. Following review, it is then consulted on with the Fund's employers. The FSS must be agreed and approved by 31 March 2023.
7. The 2020 funding strategy statement, linked in the background papers to this report, is a cumbersome document, containing all the required information, but is not very user friendly, or intuitive.

8. The fund has commissioned the actuaries to review and update the FSS, which has resulted in a more concise document, supported by separate policies dealing with some of the more specific aspects of the funding strategy.

#### UPDATED FUNDING STRATEGY STATEMENT

9. The draft Funding Strategy Statement for 2023 is attached to this report as Appendix 1.
10. The core document has been re-structured to make it easier for users to navigate and find exactly what they need, along with a full review of wording to make it as easy to understand as possible.
11. This core document includes details specific to the Isle of Wight Pension Fund on:
  - The approach to calculating and certifying contributions for each employer type (e.g. academies, Transferee Admission Bodies) in section 2, including specifying when additional contributions may be payable in section 3.
  - The contribution stability mechanism approach for the Council in section 2.2.
  - The approach to allocating assets between employers in section 4.
  - The 2022 valuation approach and assumptions including brief details of the key financial and demographic assumptions, in Appendix D.
  - The method of setting contribution rates for different types of new employers, in section 5.
  - The fund's considerations in respect of bulk transfers of members either into or out of an employer, in section 6.
  - What happens when an employer leaves the fund in section 7, including the fund's approach to exit credits and the flexibilities offered for the payment of cessation debts, expanded further in Appendix F.
  - How the uncertainty relating to McCloud is allowed for.
12. The core document is supported by a number of appendices:
  - (a) Appendices A to D are consistent with those used in previous versions of the FSS. These respectively cover the regulatory framework, roles and responsibilities, risks and controls, and actuarial assumptions.
  - (b) Appendices E and F introduce new policies for the fund, covering recently introduced flexibilities for the fund in respect of the ability to review employer contribution rates between valuations, and the treatment of employers at cessation.
13. There are a number of blue highlighted references in the draft FSS document, which indicate that further information is available from the fund on request. these areas will be the subject of additional policies in due course. It is proposed that these are created over the next 12-18 months, so they are fully operational before the next valuation.
14. The specific areas to be covered by these policies include:
  - (a) The prepayment of employer contributions.
  - (b) Academy participation.
  - (c) Pass-through arrangements for transferee admission bodies.
  - (d) Employer admission to the fund.
  - (e) Bulk transfers.

- (f) Exit credits.
  - (g) Flexibility on exit.
15. Items (b) to (d) expand on section 5 in the draft FSS; item (e) expands on section 6; and items (f) and (g) expand on Appendix F.
16. Each of these new policies will be brought to the local pension board for review and onward recommendation to the pension fund committee for adoption in due course.

## CORPORATE PRIORITIES AND STRATEGIC CONTEXT

### Corporate Aims

17. There is nothing contained in this report which directly contributes to the priorities contained in the [Corporate Plan 2021 - 2025](#).

### Pension Fund Strategic Aims

18. The primary objective of the fund is to provide pension and lump sum benefits for members on their retirement and/or benefits on death, before or after retirement, for their dependents, in accordance with the Local Government Pension Scheme (LGPS) regulations and statutory provisions. The committee aims to operate the fund in such a manner that, in normal market conditions, all accrued benefits are fully covered by the value of the fund's assets and that an appropriate level of contributions is agreed by the employer to meet the cost of future benefits accruing.
19. The funding strategy objectives, supporting the primary objective above, are to:
- (a) take a prudent long-term view to secure the regulatory requirement for long-term solvency, with sufficient funds to pay benefits to members and their dependants.
  - (b) use a balanced investment strategy to minimise long-term cash contributions from employers and meet the regulatory requirement for long-term cost efficiency.
  - (c) where appropriate, ensure stable employer contribution rates.
  - (d) reflect different employers' characteristics to set their contribution rates, using a transparent funding strategy.
  - (e) use reasonable measures to reduce the risk of an employer defaulting on its pension obligations.

## CONSULTATION

20. The Local Government Pension Scheme Regulations 2013 require that the administering authority must consult on the Funding Strategy Statement before publication with such persons as it sees fit.
21. The draft FSS was circulated to all employers of the fund on 22 December 2022, opening a consultation period ending on 27 January 2023. The suggested period for consultation is 30 days, but this has been extended to allow for the Christmas and New Year break.
22. The draft FSS was also sent to members of both the Pension Fund Committee and the Local Pension Board on 23 December 2022, at the same time as to officers of the fund. This meeting of the Local Pension Board forms part of the formal consultation process.

## FINANCIAL / BUDGET IMPLICATIONS

23. The cost for the preparation of the core funding strategy statement, and the costs for drafting future policies, are as agreed in the contract procured in 2017. These costs are borne by the pension fund.
24. The employer contribution rates arising from the valuation, determined using the processes outlined in the funding strategy statement, linked into the investment strategy for the fund, ensure the pension fund will have sufficient assets to pay its current and future benefit obligations.

## LEGAL IMPLICATIONS

25. The Isle of Wight Council is the administering authority for the Isle of Wight Council Pension Fund. An administering authority is defined in the Local Government Pension Scheme Regulations 2013 as “a [local authority] required to maintain a pension fund under the local government pension scheme regulations”.
26. The Pension Fund Committee is a committee under section 101 of the Local Government Act 1972, with delegated authority to discharge the council’s statutory duties in respect of the LGPS.
27. Regulation 58 of the Local Government Pension Scheme Regulations 2013 requires each administering authority to prepare, maintain and publish a written statement setting out its funding strategy. The regulations specify that the statement should be published after consultation with such persons as the administering authority considers appropriate.
28. The regulations also state that the administering authority must have regard to the Chartered Institute of Public Finance and Accountancy (CIPFA) document “Preparing and Maintaining and Funding Strategy Statement in the LGPS” 2016 edition.

## EQUALITY AND DIVERSITY

29. The council, as a public body, is required to meet its statutory obligations under the Equality Act 2010 to have due regard to eliminate unlawful discrimination, promote equal opportunities between people from different groups and to foster good relations between people who share a protected characteristic and people who do not share it. The protected characteristics are: age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation.
30. The adoption of the funding strategy statement has no implications for any of the protected characteristics.

## RISK MANAGEMENT

31. Risk management is central to the Local Government Pension Scheme (LGPS). LGPS pension funds are in themselves risk management tools, managing the risk that future employer income streams will be able to meet future pensions liabilities by creating a reserve from which future liabilities will be met.

32. The FSS contains detailed information about the risks associated with the funding of the fund, covering financial, demographic, regulatory and governance risks.
33. Details of these risks and the control mechanisms in place to mitigate those risks are set out in Appendix C to the FSS, as well as within the fund's own detailed risk register.
