

Committee – Cabinet – 9 March 2023

Written question from Diana Conyers to the Leader

IWALC was invited by members of the Cabinet to suggest amendments to Protocol 16 of the IWC Constitution, which concerns the relationship between the IWC and local parish, town and community councils and is now out-of-date for various reasons. We submitted a proposed amended version to the Leader in November last year. Please can you tell us when we will receive a response to our submission?

Response

Cabinet thanks IWALC for their suggested amendments. Protocol 16 forms part of the Isle of Wight Council's constitution and there is current work underway to review the constitution and this will include consideration of the amendments as suggested by IWALC. The timescales for this are also currently under review but we will confirm as soon as possible.
