**The following activity supports UN Sustainable Development Goal 9:**

Approval has been given by the Major Highways Project Board to proceed with revising the draft Local Transport Plan 4 (LTP4) in readiness for public consultation in the absence of the Department of Transport guidance. As such we are now in the process of engaging with Hampshire County Council Commercial Services and their consultant Atkins, to pick up on where the project was left. It is hoped that the revised draft will be ready for sharing with Cabinet for approval in the late spring or early summer 2024.

The latest Local Cycling and Walking Infrastructure Plan (LCWIP) for The Bay is in the final stages of development. It is anticipated that the initial draft will be received from the consultants by late January or early February.

The initial amount of the Bus Service Improvement Plan (BSIP+) funding has been utilised to enhance and preserve two local rural bus services, though the wider Enhanced Partnership governance arrangements are yet to be stood up. It is anticipated that this will be achieved in early 2024 so that the remaining funding can be utilised to enhance further local bus services.

Safety-based highways improvement schemes have faced some delays during this quarter because of resourcing, procurement, technicalities, the impact of severe weather events and the capacity of contractors.

The current priority in relation to local traffic arrangements for the Undercliff area is to deliver a remodelling scheme at the Junction of Rectory Road, Church Street, Newport Road, and High Street, Niton. The design element has been commissioned with Island Roads.

**The following activity supports UN Sustainable Development Goal 11:**

A report relating to the Island Wide Speed Assessment is hoped to be submitted to Cabinet in the spring 2024.
