

Corporate Scrutiny Committee – 12 April 2022

Written question from Sue Ecuyer of Freshwater to the Corporate Scrutiny Committee

It has been made plain from previous consultations with residents that we are against changes to the settlement boundary. Freshwater needs its infrastructure improving considerably to allow any wholesale building to take place. As these views and those of the Council's own Task and Finish group have been ignored has the correct procedure been followed?

Response

Please see first paragraph of response to PQ14/22 (the suggestion that views have been ignored), second & third paragraphs of response to PQ14/22 (Task & Finish Group), response to PQ11/22 (settlement boundary process) and second paragraph of response to PQ16/22 (consultation process).

Following consultation responses, including from the Task & Finish Group, the Draft IPS includes a new strategic policy (INF1) requiring specifically the provision of and/or financial contribution to infrastructure from new development.
