They are not social distancing at all.

Some of the groups there have abused inf and have said "what is it. It's a geezer". They have also told her to "fuck off". She does not wish to make a formal complaint about it, but the group are intimidating people.

Inf spoke to the owner of the bar and told them it was their responsibility, but he said it was not.

EMAIL FROM P.C.S.O. FENNEL DATED 26TH MAY RE GROUPS CONGREGATING OUTSIDE HARBOUR HOUSE/HARBOUR DELI

Hi Paul,

Can you please confirm if the harbour café is licensed to sell alcohol?

Just to make you aware we had some reports of people not social distancing and being in groups. I informed the owner and DPS and made them aware of concerns raised and asked if they speak to people to make them aware, if any concerns to call Police.

Please look at 44200185324.

Hi bradders

Last night on my walk that harbour kitchen place down by balcony was selling booze. There was no taking away, well to the wall at least. There was prob 40 to 50 very drunk people including most of our nominals. He was also playing music. I don't know if this is allowed but i thought it was take away only not playing music encouraging people to stay there. This was half nine last night.

I've sent you a pic:) if its allowed no worries I Just wondered why no other pubs were doing it

Log entry: WARNING EMAIL SENT TO DPS, KARL HARDING BY EH.
The Health Protection (Coronavirus Restrictions) (England) Regulations 2020
Health and Safety At Work Act 1974

Dear Ms Hyatt and Mr Brading

I write further to the conversation that we had yesterday when I visited the area around the Harbour deli and Harbour Kitchen.

Can you open?

These regulations specify a number of business/venues that must stay closed to the public to reduce social contact <https://www.gov.uk/government/publications/further-businesses-and-premises-to-close>. As a food/café/public house business you have been in a position to may open (as a takeaway or delivery) for consumption off the premises without committing an offence under these Regulations.

The retail unit selling gifts, amusements, funfair and any playground must currently remain close. This is the same for any toilet facilities as the only exception for toilets are the opening of public toilets.

Health and Safety

As you have started to open as I advised you have responsibilities and duties under the Health and Safety at Work Act 1974 to ensure the health/safety and welfare of employees and persons not in your employment.

Therefore, you must take appropriate steps to work safely during the coronavirus pandemic. This will mean undertaking a risk assessment and putting in place controls necessary to protect employees and members of the public from the risk of contracting coronavirus. Where an employer has 5 or more staff, they should document their significant findings.

The Government have produced guidance to help employers, employees and the self-employed understand how to work safely <https://www.gov.uk/guidance/working-safely-during-coronavirus-covid-19>

Please note that these are not legal standards, but should be used to guidance and assist business decisions and safe systems of operation. Bear in mind, human behaviour will play a significant role in achieving a safe working environment.

Licensing Act

Please ensure that any operation is in line with your permissions under the licence issued under the Licensing Act 2003.

Complaints

After the advice I had given yesterday in was disappointing to receive complaints both to us here at the Council and the Police these were report of gatherings of people and music playing during the afternoon and into the evening yesterday.

The Government has prohibited by law all public gatherings of more than two people, except where they are members of the same household, or two people from different households who keep 2m apart at all times. Only those who meet these criteria can visit public places for recreation.

There is no doubt that part of the attraction for people to visit the seafront and beach is due to many premises now offering take away food, soft drinks and alcohol. This can exacerbating the issues of crowding and groups gathering, in direct contravention of the legislation

What would you like to tell us about?: I wish to make you aware that the Harbour House Café on Ryde Seafront by the marina along the esplanade is selling alcohol from it's premises and the clientele from there are congregating in large groups along the walkway making social distancing impossible for passers-by out for a walk. As more alcohol will be consumed the worst this will become. Also the establishment has open it's toilets for their customers.

EMAIL RECEIVED FROM P.C.S.O. FENNEL ON 01/06/20 RE GROUPS HE AND P.C.S.O. KING HAD SEEN OUTSIDE HARBOUR HOUSE ON 30/05/20

Hi

I thought that I should update you re the above licensed premises.

During the day on Saturday, 30/05/20 whilst on patrol, I received several complaints from MOP re the large group that were gathering outside their premises and on the sea wall. Some MOP showed concern as the social distancing wasn't happening. They were feeling intimidated by the sizes of the group and the language. They were asked to call Police and council- trading Standards and Environmental Health should they have any concerns

I approached the DPS and made him aware of the concerns raised and was told that he was doing his best . He was informed that he had a responsibility to remind persons of the covid regs and not to allow persons to drink on his property . I was made aware that the premises was staying open to 10pm. I made him aware that further reports would have an impact on his license.

The groups that were on the harbour wall were spread out from the harbour masters office along to the sailing club , and at times before being spoken to were 4-5 people deep. Groups were reminded by myself to adhere to the social distancing. The ignorance of the social distancing from a few of the groups was mainly down to known nominals. Persons were reminded that ignorance of not adhering to the covid reg would allow Police to take it a stage further and use Police discretionary powers of the DPPO. At this point I left . A lot of people were adhering to social distancing after Police. However it was felt that this was temporary till we were out of site

Further that afternoon PCSO KING went down and noticed that the group had increased to approx. 50-60 people. Police were informed that the bar would be open till 10pm, empty glasses and rubbish were seen in the harbour area and people who had been drinking were seen swimming in the harbour enclosure.

Early evening PCSO King and myself went down to the harbour . The number had increased. We were stopped by several members of the public asking what Police were doing and informed them that the DPS had been spoken to. We were assisted by ARV , We made Cwun aware should any further reports come about when we could use other powers. A lot of people were adhering to social distancing after Police spoke to them . However it was felt that this was temporary measure till we were out of site. A lot of our known nominals were now there at this time.

This premises is becoming a magnet for younger persons – 20 yrs +. All the other cafes, Big Kahuna, Appley Park, Captains Table etc appear to be adhering to conditions. I feel that the DPS is just after the money at this time.

Regards Darren

Summary Description: Online form submission: GON-32676-20-0144-C

There is a group of 20 people sitting around the Ryde Pier Cafe, buying drinks from the Alamo over the road and bringing them with them to the cafe. They are getting quite loud, shouting at people.

As you go further down the esplanade the same thing is happening at the Harbour House bar where there are about 30 people. It is hard to walk down there without getting within 2 metres as they are going between the harbour wall and the bar.

Incident Update

Regarding yesterday's observations at Harbour House, [REDACTED] [REDACTED] [REDACTED] were sat on the benches in the outside area of HARBOUR HOUSE, the decked area. I did see that [REDACTED] was drinking a beer in a plastic cup on the premises. It wasn't until we walked by and thought about it that we decided that this was a breach and we needed to address this. On our return they had gone.

The outside bar was staffed by 2 individuals, [REDACTED]. Staff are always very polite and helpful and happy to speak to police.

Yesterday there were yellow warning signs on posts along the seawall directly outside the restaurant that clearly stated no one to be sat on the wall. The posts were turned around facing the sea, so unable to clearly read.

There was only approx. 5 or so persons sat on the wall, not the usual candidates, please note they were not causing issues, and were all drinking from plastic cups.

[REDACTED] and [REDACTED] had parked their cars on the grass verge near to the fishing club, not in the pay and display car park.

As the afternoon went on, the groups appear to grow in numbers on Eastern gardens, attracting the younger groups whom are clearly buying from harbour House. This area of Eastern Gardens is always a focus for patrolling police, and appears to have a feel about the atmosphere that the more alcohol being drunk will cause drink related issues as the summer continues. I will approach the council to ensure that signs are clearly displayed ref the DPPO, so persons are aware exactly what this means and how it is managed.

Many Thanks

Zoe

Hi Paul,

in support of my colleagues I was down there outside Harbour House after them.

There was approximately three group of persons sitting drinking with plastic containers supplied by the premises on the wall opposite . Two of the groups were social distancing. The group known to me with nominals who live locally were the ones that weren't abiding by the guidelines. The nominals brought their drinks from the premises, and sat with their drinks on tables opposite the bowling green. I was on my bike and had a conversation with one of the nominal group for at least 15 minutes.

[REDACTED]

[REDACTED] At no time whilst down there did I see him challenge anyone in relation to social distancing.

All the signs had been turned around re social distancing . It is a concern that all Ryde nominals appear to go to the Harbour House. It is obvious that the DPPO powers can only come inforce when persons are acting in an ASB manner and refuse to surrender their alcohol to PCSO/PCs when requested . We can then summons them to court.

Hope this helps

Regards Darren

Hi Paul ,

Further update from Harbour House. Between the times of 1530 – 1800pm today whilst on patrol it was noted that Leigh Hyatt was putting more signs up and asking persons to leave the area after purchasing alcohol . People were social distancing, however both the owner and the DPS were expressing their difficulty in abiding by their license they were informed that they have to keep on persisting. They did inform me that they are getting an SIA person for the weekend, Again they expressed concerns as the DPS stated that they won't enforce anything that is not on their property- being edge of their area to the harbour wall. He was advised that should he have any concerns or threats being made to call Police .

[REDACTED] I shall update you as and when if that alright .

Regards Darren

Originally submitted as intel, however requested to create an occurrence for ASB.

On the 30.7.2020 at approx 22.00Hrs, there was a large crowd of local nominals frequenting the Harbour House Restaurant, Ryde Esplanade.

As the police car patrolled past the restaurant [REDACTED] could be heard to be shouting aggressively at [REDACTED] that he wanted to fight. The crowd appeared to be toxic and bubbling. The persons present appeared to be in drink and milling around. [REDACTED] and [REDACTED] then spotted police and parted.

The restaurant had no security on. The venue was very busy. The control room were updated and a communication to local officers awareness was put over the radio.

Subsequently from speaking to [REDACTED] informed me that they had heard there had been a scuffle at the venue on this night and someone had a chair wrapped around their head. There was no police report to make ref to this and police were not called. For some reason there was no security on this night either.

The venue now have door staff x 2 on the weekends, although from speaking to the owner, they have highlighted that Thursdays appear to be a very busy night. The owner denied all knowledge of the chair incident and made out he was unaware of it.

Licencing will be updated.

[REDACTED]
